## A QUICK OVERVIEW OF THE PAST

In the beginning of my writing of this book, I had not much focused on my composition due to many things that I need to attend many priorities to accomplish, ---all in line with my inner callings. Actually, I do divine healing/energy healing, spiritual counselling, etc. all in line with wellness exercise or holistic arts. So, meeting with people who were patients of divine/energy healing would be my daily organizing. I offered my service for free. From time to time, with my allies, we travelled to different places for missionary works.

There are many things my divine inner guidance telling me to write a book, so, part of them, I had already written. But not much time for me to perfect them all. I need time to write, but more often, I'm always busy that I had to write it fast because the people were waiting.

I didn't have other option but to write it fast; and no much time to review it, so done in a hurry, so I can attend my schedules.

Every day, regardless of time --- day or night, so long as there is inner calling, I'll go on. We go on. Of course, I have to bring few of my alliances for the tasks visiting people in different places for divine healing mission. My

time to write the book could be said, not really much, but in spite of it, I have to attend my duty on this.

Supposedly, I had done writing my composition for the first book, unedited 3 years ago. I found someone who helped me edit it. After the editing was done and published. I reviewed it and found out many things in the book, which I actually lately discovered were not concise, not because of my editor was not good. Actually, my editor was very good in English. But the message which I supposedly want to express the thought were not concisely written by me for a certain reason: when I wrote the message, I wrote it hurriedly using foreign language. And I have not much time to review my composition, so, mistakes happened.

So, after reading the book I discovered, there were so many mistakes and deficiencies in my composition, which failed to meet what I would like to really express the thought of the message of my inner side. So, I realized that I need to review and rewrite some of those, to arrange everything and complete my composition with focus of my attention.

Actually, it's difficult to write a book without giving appropriate time and focus of attention on it, especially the book that I'm going to write comes from private revelation of the inner side. Likewise, to assign an editor

for the book without me writing it concisely is quietly hard. So, it was actually my mistake of not focusing enough time, while I was writing my first composition, but failed. So, I learned many lessons from it. I realized, --- 'The WATCH A DIVINE REVELATION should be well attended, since it is priceless VICTORY.' GMPS1---72

## CHAPTER 1

### WATCH A DIVINE REVELATION

Is unveiling inner secret of nature and mystery of the “Most High” on activities of Supreme Master of Wisdom/SMW ACADASTAR---Supreme Super Light Angels/SSLA. It is revelation based on lessons of actual and direct experience through exercise of Angels’ Contact and Connection/ACC - Art of Life 1---72.

Why stars are moving on the skies? The people are amazed with those moving lights as if stars, so they called them Unidentified Flying Objects/UFO. But the truth behind this mystery light puzzled the minds of many enthusiasts. What’s the essence behind this phenomenon? And what/who really, they are?

To begin our journey on inner discovery, we will just focus on our attention first to these few things out of the thousands or millions of questions that we should know the answers to satisfy the best of our soul realizations.

Actually, those are not Stars that hover on skies. Precisely, they are Angels of the highest order, since they come from the “Most High or what the common people called God. Anyway, don’t be confused with technology that hover on

skies, which sometimes also looks as if mysterious light, over at a long-distance viewing. So, let us get to know absolute truth in the actual field of inner discovery through direct experience by following the lessons called Art of Life 1---72, for solid divine guidance and inner connections of the Highest.

Initially, the hierarchy of these Angels revealed as Supreme Super Light Angels/SSLA. While the Supreme Master of Wisdom/SMW is called ACADASTAR. SMW ACADASTAR ---SSLA are bridging divine radiance/DR of the "Most High" to the entire existence. They are getting closer with the people on Earth for important message, which is the ascension of life in the planet, into higher dimension.

The reason of their manifestations on skies, as if moving stars carry essential message the people must attain to know, so they will see and realize the deeper meaning of life. The ultimate truth is unveiling through the bridging of DR of SMW ACADASTAR --- SSLA on "WATCH A DIVINE REVELATION. Look! See the Supreme Lord God of heavens is coming in the clouds of fire, together with His powerful Angels.

## ART OF LIFE 1---72

Is Angels Contact and Connection/ACC, also called Star Dance Movement exercise, which is a soft movement exercise based on inner cultivation. It can open and balance the energy of the body. The Art of Life 1---72 is also Spiritual Martial Arts/SMA on its higher meaning. It is an art that can put you align with the highest consciousness of the advanced universe.

Comprising of 72 lessons of movement exercises and 29 structural exercises, so a total of 101 lessons in all. The Art of Life 1---72 is all based on internal system of self-defense art. Also, together in the package of its lessons are the different techniques of meditation, advanced divine connections and spiritual study.

The Art of Life 1---72 in spite of its various techniques of exercise in different fields, is wellness or holistic system of inner cultivation and discovery, healing arts, martial arts, meditations, advanced spiritual study, ascension exercise, yet, all share in one and common divine union, ---the foundation of Supreme Divine Radiance/DR of the “Most High” or what the common people called God.

## DAWNING

The ocean is big, the sky is high and the journey is long, so I should have wider view to see what things are right. The sun, moon, and stars are dancing by the light of ultimate truth in “WATCH A DIVINE REVELATION, activities of Supreme Master of Wisdom/SMW ACADASTAR --- Supreme Super Light Angels/SSLA” in the planet. Now, they are manifesting on skies and getting closer to the people for certain revelation of truth of the “Most Absolute” on the entire planet.

Unveiling inner truth in the exercise called Art of Life 1---72, is the SSLA manifesting on skies during Angels’ Contact and Connection/ACC. The Art of Life 1---72 was released by SMW ACADASTAR to aid the ascension of the people in the planet, into higher dimension.

“SMW ACADASTAR” refers to the prince of Angels on GRADAM grand inner realm, also the name refers to the super light existence of Lord Jesus Christ – prince of peace of the blue planet. ACADASTAR is a name that also refers the super light existence of Archangel Michael prince of the Angels in heaven. Consequently, the names mentioned here refers to the SMW ACADASTAR.

The Art of Life 1---72 is Spiritual Martial Arts/SMA where its gestures composed of vibration of Angels' Contact and Connection/ACC. Instructions that I received from SMW ACADASTAR to reveal life's key of ascension, - the Art of Life 1---72 that must be taught to anyone who seeks eternal salvation of life.

### **THREE KINDS OF SPIRITUAL REALMS**

AMISRA, GRADAM and MORCA inner/spiritual realms. AMISRA refers to the supreme grand inner realm, GRADAM refers to the grand inner realm, and MORCA refers to the advanced inner realm.

AMISRA is the highest inner realm or the unnamable. It is beyond words to explain. But for sake of our understanding, we will just describe AMISRA --- the Highest Spiritual Realm.

Next is GRADAM, comprising of super light foundation and the realm of SSLA; its DR comes from the supreme grand inner realm or AMISRA. And MORCA is the third spiritual realm where the cosmos was originated. It comprises of fifteen (15) Elemental dimensions both the

advanced and minor foundations of life. The advanced are immortals called MUNHANRIM and BELHANRIM Angels, while the minor comprising of physical and astral realms of the mortals.

## **FOR PILLARS MASTER OF WISDOM**

The four (4) Pillars of Light are Masters of Wisdom that I used to call them - Spirit of DUGUKAN. Through the spirit of Dugukan I got my early inner study, at Sacred Spiritual Secret/SSS, on which, the source of this information comes from school of the inner.

Dugukan is a Cebuano local term for pillar, framework, skeleton, or foundation. In this revelation, Dugukan refers to the foundation of truth and life, which is the inner and essential part to discover by the seekers of truth, for the best of their spiritual growth of souls.

**WATCH A DIVINE REVELATION.** In the beginning of man's inner activation many strange things do come to happen as its natural course of soul awakening. The experience may even cause fears during moment things are not clearly discerned.

## ACTUAL EXPERIENCE OF INNER AWAKENING

Such as during my early years of awakening, I marveled why my awareness was so active capturing strange vibrations, which more of those visions, were even accompanied by sounds. The unusual awareness did really bother my tranquility. I wanted to sleep, but could not able to do so, my eyes saw many things, even how I tried to close them. I'd tried to cover my face with my hands or pillow to stop my eyes from seeing things, but to no avail the images continued to manifest. I heard different sounds that came from within, so it made me confused of what's going on, with such experience. The strange thing that I experienced happened repeatedly, very more often in those early years of my spiritual awakening, but I kept it secret from the people around me.

The subjective part of nature exists certain essence of truth, it is there that we must explore our awareness to know more about life's deeper meaning. But without divine guidance and force of the spirit is hard to overcome blinding ignorance and human weaknesses.

Luckily, in my early years of awakening I was guided by stronger divine guidance, so, I was able to overcome my

fears after the years of long repeated experience sensing the essence of nature. In fact, I'd learned many things out of it, which resulted into my early involvements doing psychic healing.

Essence of life exists in the inner and realizing its way is to attain soul realization. Experience is the great teacher, but without divine guidance, the journey of life is dangerous that it may result to negative outcomes, especially for those who shall be misled along the way.

I started to practice psychic healing in my hometown, at Danao Valencia, Carcar Cebu, beginning at the early age around 8 to 12. My neighbors or the people that knew me believed I had gift of healing, so they asked me to heal them. Of course, I was hesitant at first, thinking if I could really heal. On the other hand, subconsciously, I had strong feeling that I could really heal them, so I tried myself to help them healed.

I have no idea how to perform healing, so I just relied on my own initiative. What my mind dictated me, thus I performed then too. I used touch and blow healing or in some other ways what my heart/mind commanded me to do so. And luckily by the blessings of God, they were healed. So, people that knew me, they were more believed

that I'm a healer. And chats spread about it, so the more people that heard and come to me for divine healing.

Divine guidance comes from within. Listen within yourself, there you will see, there is stronger inner guidance shadowing life for those who will come to shelter the way of heaven. This is my experience since from the early years of my inner awakening. Discern the ways of heaven, and you will be blessed in life with inner understanding.

Attaining inner study, at Sacred Spiritual Science/SSS is to begin your awareness in the connections of SMW ACADASTAR---SSLA. By the blessings of Heaven, I grew up with much inner experience that ignited my higher soul realization. My spiritual study allowed me more acquaintances with higher beings on the inner realms. Apparently, the early years of my inner experience brought me many wonderful connections from AMISRA, GRADAM and MORCA realms.

Every time I woke up from my spiritual study, I could simply recall my SSS training in the astral-spiritual realms. I noticed many great things I could do in the spiritual realms, but very unlike in the physical. I discovered many

people having great potentials in their spiritual life, but in their physical state, they are weaker and unawaken.

There are many things that I gained from my spiritual study, yet, I cannot elaborate them all in this book realizing there are more important topics to discuss here, so we must save our pages. The vital goal is to impart to the people- life's essential key of ascension into higher dimension," as instruction given to me by SMW ACADASTAR, to teach Art of Life 1---72 for the people who deserve to receive and learn inner lessons. The Art of Life 1–72 was released by SMW ACADASTAR to help the humanity's ascension of life through the bridging of DR of the "Most High". WATCH A DIVINE REVELATION 1---72.

## **PREAMBLE OF WATCH A DIVINE REVELATION 1---72**

On August 12, 2007, over at Sudlon Mountain, Cebu Philippines the preamble of WATCH A DIVINE REVELATION was opened by ACC - Art of Life 1---72. The event was witnessed by fourteen (14) people who personally present in the site, at 4:00 o'clock early dawn, and until sunrise.

Before the event, SMW ACADASTAR instructed me to go to the cave, at Sudlon Mountain, sited Cebu Philippines. With my apprentice, we began our trip to the mountain. Driving a motorbike with my apprentice didn't precisely know where we were going, not until we arrived in the place.

We parked our motorbike near the cave, and we walked forward through a small pathway. Our location could not be more than 50 meters from the cave entrance, but still we could not see the cave due to thick trees that covered the range.

The main entrance of the cave is bound on East boundary. We walked a little bit faster on a small pathway sloping down until we reached the entrance of the cave. At the entrance we saw three (3) small cabins made up of bamboo light materials built inside the cave.

In the first cabin, at the very entrance of the cave were two (2) guys lying in the cabin floor, --- one looking 70's and the younger lad was looking mid 20's. While getting closer in the entrance, the old lad saw us; he was astonished by our sudden arrival, so he immediately stood up while staring us getting closer.

Anyway, I already visited this cave once way back in 1999. At that time, there were no man-made structures done inside. The cave was just gorgeous plain scenery of nature.

Inside the cave we saw the cemented floorings and there were also statues of religious icons, all were man-made improvements introduced inside, with signs of religious activities. We walked further inside the cave.

The instruction of SMW ACADASTAR brought me back on this cave for the second time. But on this second time, is already for the launching of activities called - "WATCH A DIVINE REVELATION."

The old guy invited us to come into his cabin, -Dong, where did you come from, he asked. (Dong means Cebuano local term used to call for a younger guy) Come here, so we will talk; with his calm voice and soft smile on the face, he invited us. Good day Nong! We go inside the cave first and then come back to you later, my reply. (Nong is a Cebuano term for respect addressed to call for an older guy).

I saw the looks of their excitements; okay Dong! Come back later after you have done inside; he said. Okay Nong! See you later, so quickly we proceed inside. Walking

farther and deeper along the passage of the cave, we saw it was just part of the cave they had introduced small improvements, the deeper side remains natural scenery of nature.

Okay, touch this stone and follow me; I told my apprentice and in less than an hour by the divine guidance of SMW ACADASTAR, we had successfully done our tasks inside, so quickly we went back to the guys waiting us, at the cabin.”

In the cabin, we began our chat, we learned that the old guy was Fortunato Mahinay. He was a priest of local religious organization based in Cebu. And the young lad is Noynoy, the apprentice and assistant of the priest in the cave. They both inhabit the cave not so long, at least few years, and the Reverend commissioned the constructions inside the cave from donations of the people. We began our conversation with spirited discussions that seemed we had known each other for so long. Apparently, we enjoyed our chat. The Reverend was also a spiritualist with esoteric knowledge that he gained even long before he joined his current religion that help him inhabit the cave.

I told him the purpose of my visit in the cave, with his awareness, he listened sincerely with sense of humor; and politely, he welcomed us to meet the rest of his brothers and sisters in the place.

Noynoy! Call our brothers and sisters; let them come here to meet our visitors. Yes Tay! Noynoy replied. (Tatay means a Cebuano local term for a father) but Noynoy was not the Reverend's biological son. Quickly Noynoy went to call their brethren.

The cave is mystical with sacred portals; the Reverend agreed, he was aware of it, so we had many things to talk more about during our first meeting. The Reverend said his spirit guide told him to construct the improvements inside, I listened him but without saying my comment on this concern. He led more or less than a hundred people in the place, all of them were simple living. And few minutes passed by Noynoy returned in the cave, and with him was already their brothers and sisters.

They greeted the Reverend and blessed him. Brethren, meet our visitors from Cebu City; this is Dodong Jeanephus and this is Dodong Leonardo, they are here today to bring us good news from the Father.

On their countenance, they were happy welcoming us with their pleasant smiles and handshakes. We were delighted too, and grateful to their hospitalities. The Rev. expressed his happiness; and said to his brethren, "Children, they were sent by the Father to give us more enlightenment; we are blessed today by the heaven's grace.

The Reverend's way of inspiring his brethren often mentioned 'Father', the common term used by many clergies of Christian religion. In particular he practiced Esoteric Arts, the way he enlightened us before Nonoy had returned in the cabin.

As we already had gathered in the cave, I took the opportunity to open with them topic of ACC. The "Most High" "(Father)" commanded me to come here for certain activities called "WATCH A DIVINE REVELATION". It seemed they were silent observing trying to catch up the meaning.

The Angels of God are getting closer to bridge us the light of eternal salvation, so deeply ponder your thoughts on it. And colors of their auras flickered with astonishment perceiving the meaning of my message. WATCH A DIVINE REVELATION 1---72.

It seemed the day was just very short for us sharing information with them, while the sun was about to set, so we need to stop our chat. We should go back to the city for another important tasks to attain.

With my apprentice, we thank them all for their hospitality. And before we took our leave, we promised them for another visit sooner. We would come back for sharing of more spiritual knowledge, hopefully next week. See you all again here, then we leaved back to the City.

The following week Sunday, we arrived at 9 o'clock early morning in the cave. The Reverend together with his members were already there inside the cave waiting us, thus we met them again. They were happy to meet us, the second time. Without any delay, we started the program and I brought them topic about 'Art of Life 1---72. They all listened to my discussions. The lectures went well and then it followed by everything important to know about "WATCH A DIVINE REVELATION."

They were delighted with the development of our second meeting. Our assembly continued until sunset came, so we need to adjourn our discussion. It's time for us to go back to the city. We bade them farewell and depart.

The following weeks, we launched another series of seminars inside the cave. Every Sunday on the same year, beginning from the month of July and until the Preamble of "WATCH A DIVINE REVELATION" was launched on August 12, 2007.

At four (4) o'clock dawn and until sunrise the Preamble of "WATCH A DIVINE REVELATION" took place, over at Sudlon Mountain, Cebu Philippines. The event was opening activities of SMW ACADASTAR---SSLA bridging DR of Supreme Universal Name/SUN to the people on Earth. Present in the event were fourteen (14) people who personally witnessed the actual activities.

The site we gathered together was just hundred meters away from the cave where we launched our lectures for the said event. It was during the meeting inside the cave that I gave them orientation about WATCH A DIVINE REVELATION. Now, the time has come for them to see the truth of the things that I discussed with them in the cave.

SMW ACADASTAR---SSLA gave signals of their presence above, so I asked the people to perform ACC Art of Life 1--72 to receive connections from SMW ACADASTAR---SSLA. Watching the skies, with our naked eyes, we saw

the presence of many lightships moving in different directions. And there were two big rainbows appeared above the mountains where we stood. That was beautiful dawn-morning, while the stars and the rainbows were shining brightly and wonderfully in the heavens.

These wonders that we saw brought joy to our hearts, the presence of SSLA dazzled the entire surroundings with heavenly lights. Shooting stars coming from different directions and the Spiritual Energy Stations/SES appeared in the forms of two (2) big rainbows confirming the Rainbow Bridge of Light/RBL that I explained to them during my lectures inside the cave.

The rainbows appeared are spiritual energy station/SES of the SSLA; the four (4) Mother Lightships are main spiritual energy stations stationed in the four corners of the world. The 2 big rainbows and many strange lights filled the entire surroundings with blissful atmospheres. Apparently, the SSLA manifested certain wonders of heavens for us people standing here in the ground witnessed the truth of WATCH A DIVINE REVELATION.

Personally, we had witnessed by our naked eyes the illustration of inner truth making us the living witnesses of SMW ACADASTAR---SSLA WATCH A DIVINE

REVELATION. Heaven brought us remarkable experience touching our hearts-souls with soothing energies, while the entire atmosphere where our eyes could see strange lights.

The Preamble of WATCH A DIVINE REVELATION brought us unforgettable experience that truly delighted our hearts, souls and spirits by heaven's revelation of inner truth. Inner stillness, divine love and new light of hope manifested in our hearts, as we experienced these actual wonders of Advanced Spiritual Worlds bridging us DR of SMW ACADASTAR---SSLA.

WATCH A DIVINE REVELATION unfolds in the bridging of DR of SMW ACADASTAR---SSLA and perceivable by the awareness of man, especially to someone that practices Art of Life 1---72, since lessons of the said Art will facilitate the awareness of man to get familiar with the truth of supreme ultimate.

The Preamble of WATCH A DIVINE REVELATION was the first Celestial Conference successfully launched on August 12, 2007, and then followed by regular Celestial Conference each year on the same date and month. Now, the event is called "CELESTIAL CONFERENCE" ---

bridging the DR of SMW ACADASTAR---SSLA to the entire humanity.

On the “Celestial Conference” SMW ACADASTAR message and divine connection are anticipated by the practitioners” of Dugukan.” It is very good opportunity for everybody to request divine healing during the SSLA will visibly appear on skies.

The “WATCH A DIVINE REVELATION” provides actual evidence of “inner truth,” with certain facts, the presence of SSLA. The truth is undeniable by their tangible manifestation, especially during ACC--- Art of Life 1---72 exercises.

Deeper and higher awareness through lessons of SMW ACADASTAR (Lord Jesus Christ super light existence) is now revealing on activities called WATCH A DIVINE REVELATION. Don't miss your chance to know the truth of ultimate light, which certainly, it is the key of your ascension into higher dimension. WATCH A DIVINE REVELATION.

## SUN SYMBOL SECRET

The Art of Life 1---72 forms and gestures are based on the modality of Sun Symbol. It is the Dugukan system encompassing set of gestures, which are extremely powerful exercise to trigger internal energies, activate inner awareness and align them with the higher consciousness of the advanced universe.

The word Dugukan means “Pillar, Skeleton, Framework or foundation. It is added before the phrase Art of Life 1---72” to express a powerful system of physical, mental, and spiritual workouts.

The Dugukan sun symbol modality is based on four main directions of the East, North, West, South, the Sun and its eight (8) main Rays and Circular form.

Figure 1

The Sun modality comes from two (2) fused four (4) main directions and its circular form in the Core; when merged altogether will result into a perfect “Sun” symbol.

Figure 2

And when disassembled into a discrete body Liparts will still stand a perfect transformation of Star and Moon symbols. Therefore, the modality of Art of Life 1---72 carries altogether three (3) heavenly symbols: The Sun, Moon, and Star merged in ONE to form a perfect sun.

Above the “sun” is highest power of Consciousness, Energy, Light, Life/CELL.” Life is a CELL. There’s essence to discover in the sun symbol, the key of life’s ascension into higher dimension called Art 1---72.

The sun acquires energy from within through natural nuclear reaction under high pressure, heat, and density like fusion battery made to provide the Earth with light, warmth, and energy. The sun’s luminous celestial body fixes all other natural satellites of the planets. Likewise,

the sun symbol is dealing life's secret key of the highest CELL of the Supreme Universal Name/SUN.

The greatest power of the universe is balance. Beyond the sun is a supreme "CELL" that authored the entire creation. The cosmos is a picture-perfect evidence of a supreme formation. Beyond is the "grand inner realm called GRADAM or the realm of SSLA. And the highest inner realm is called AMISRA or the supreme grand inner realm.

## **AMISRA GRADAM MORCA REALMS**

AMISRA and GRADAM are realms beyond words to explain, but for the sake of our discussion, and to have a little background of their presences, we will just describe them into supreme grand inner realm -AMISRA and grand Inner realm - GRADAM.

Through the Rainbow Bridge of Light/RBL CELL descended from AMISRA, so GRADAM exists for supreme infinite super light existence. Through the "RBL CELL" descended from GRADAM, so MORCA realm exists for both the advanced and non-advanced foundations of life. MORCA realm is comprising of 15

Elemental dimensions. The 14<sup>th</sup> and 15<sup>th</sup> of these dimensions are for the mortals. It is also where the cosmos was originated. The astral realm is part of MORCA advanced inner realm.

AMISRA, GRADAM and MORCA REALMS: The Dugukan foundation of inner formation: First, AMISRA is the highest realm where infinite truth revolves certain foundation of absolute truth that cannot be simply explained by words. So, it is unexplainable with the human level of understanding. So, we will just simply describe then --- the Highest.

WATCH A DIVINE REVELATION is activity of SMW ACADASTAR---SSLA for the entire humanity to realize inner truth and ascend life into higher dimension. The SSLA bridging inner secrets of the advanced universe for life's ascension into higher dimension.

Life is governed by supreme law of equilibrium; CELL descended on lower dimension to ascend then into higher realm. From the Beyond was life descended in the minor realm. And from thence, life ascended into the advanced realm. By the power of equilibrium, life is pushed and dragged to descend and ascend.

Existence in the minor realms - physical and astral evolves by the power pushing and dragging life to ascend into higher realms. Behind ascending and descending, vis a vis is natural process of life's evolution and regression, vis a vis, the certain power created movement that produces vibration and energy. Summing up altogether Energy and Vibration are life's innermost vital force.

CELL, integrating a system of exercise that will put man's awareness to align with movement, vibration and energy will activate and detonate inner light. The energy produced vibrations and vibrations produced energies and once energy harmoniously aligned with the CELL, it becomes divine illumination.

Super light beings are immortals, illuminated consciousnesses are ascended masters, and unawakened consciousnesses are poorly lit mortals restrained in mundane world. And those awakened ones are lives associated in the "Elementary things of nature."

Man's perfect path to life is governed by the supreme law of equilibrium; this certain law absolutely governs every existence. Violating this law indicates disharmony or destruction. All mortals are rooted life in Elemental planes making them all perfectly the trees of life. Without rooting

in the elements of nature --- they cannot exist in the physical world.

Through DR of the Highest, soul evolves and ascends life into higher dimension. Man achieves illumination through the RBL infusing CELL from GRADAM into the minor realms. The key secret of man's activation of higher awareness is "divine union" with the advanced Elemental realms MORCA or advanced spiritual world after achieving divine illumination to attain final ascension through merging of man's 9 advanced elemental bodies. Next, is the divine union of CELL with the 3-star super light bodies.

Second key secret is man's activation of advanced "divine union" with GRADAM grand inner realm prior to oneness with the light of "AMISRA supreme grand inner realm. And to succeed higher soul realization is learning Art of Life 1---72.

The permanent exercise of Art of Life 1---72 will trigger the energy centers of the body and activate inner connection with the SSLA. So natural practice of Art of Life 1---72 will lead the practitioner to attain deeper and higher soul realization.

Wisdom comes into the awareness of man, when certain networks of psychic centers are triggered with the energies of SSLA. Wisdom comes from the *Divine Source*, which without activation of man's psychic centers would be also without harmony and ability for him/her to engage the nonphysical knowledge.

Regular exercise of Art of Life 1---72 will open higher energies and enhance the practitioner's awareness with the SSLA. Advanced inner connection will be released to a person that will perform Art of Life 1---72. And the actual presence of SSLA will confirm the credibility of this

And to begin inner activation, perform any of the lessons of ACC, so, your process of energy activation would be aided by the SSLA.

So, the shortcut technique is very dangerous to your health without proper guidance.

A person can successfully adopt advanced energy through certain practice of energy cultivation and divine connection. And the best sort of divine healing is this kind of energy, which comes from SMW ACADASTAR --- SSLA. Their manifestations as if moving stars or lightships are frequent. And they are not just showing to the few individuals, but to the many people. This is the way how SMW ACADASTAR --- SSLA are bridging the message to the people on Earth.

The certain message is divine illumination of the humans for their ascension of life into higher dimension. Ascension of life into higher dimension --- basically needs higher level of inner awareness to be able to comprehend

what's now going on the ascension development of the planet.

Anybody that merely aims to work for mundane cause and reason of life shall fail thy own ascension of life into higher dimension. So, without inner awareness of the humans for the things that would really matter in life, so that is very disadvantage for them, by which life devoid of connections of the advanced inner realms is very negative and dark.

The difference among Supreme Grand Spiritual World, Grand Spiritual World, and Advanced Spiritual World is big. It is worthless to simply just tackle concepts of spiritual truth, but without weighing higher soul realization. Attain study of inner mystery, the way to know there is big difference between higher beings and deceitful spirits. Discerning inner truth requires divine guidance and connections of the true SMW.

Those who walk life with divine guidance will never deceive by false spirits, so they will not stumble life in darkness. Abide with the light of ultimate truth and beware of false spirits. In the Art of direct experience, the truth is revealed in activities called "WATCH A DIVINE REVELATION, at "The Now 1---72."

People who often come, at Dugukan site where Art of Life 1---72 is regularly performed by its practitioners, day by day, are able to see the presence of SSLA during on line drill. Luckily, they are not disappointed to see the tangible presence of SSLA. Anyway, the place or region where there are spiritual SES of SSLA will allow people to frequently see lightships, so long as the skies are not covered with heavy clouds.

The SES of SSLA will increase energy of the place making it then perceivable to people in the area who are able to align the frequency. Mere presence in the site where there is SES of SSLA will allow the people to experience the big difference.

Many individuals who are not sensitive with this kind of energy, yet turned out sensitive, at the site of Art of Life 1--72 exercise. Among those who joined the exercise perceived inner reality, which supposedly, at first attempt, they could not perceive it, but spending little time of their presence performing the system, they learned to perceive then.

72 shall be taught to the deserving ones. And they are people who can take good care of sacred things.

Everyone needs to be spiritually healthy and strong, while the physical body will benefit divine healing, so man must learn how to receive, align and adopt powerful energies that can restore weaknesses of the body, soul and spirit.

The absence of divine connection from SMW ACADASTAR---SSLA will make life very obscure. Now, present to enlighten the people are Angels of the “Most High” (God). Inner voice is calling you to attain the DR of the Highest-One.

Heaven helps someone who will sincerely serve the light. From the beyond is SMW ACADASTAR and the Angels called SSLA on their ongoing activities “WATCH A DIVINE REVELATION.”

An easier way to become familiar with the SSLA is to practice lessons of Art of Life 1---72, to activate inner awareness and connect with the SSLA. Lessons will facilitate inner activation and higher connection, so,

appreciate inner activation and connection by allowing the truth of Art of Life 1---72 to shine in you. And then, you will be awakened with the real truth.

Nowadays, unveiling of inner truth of GRADAM through SSLA is going on wellness exercise, for benefits of the people who will attain lessons of inner awakening. Supposing, people will deny the truth of this, but DR of the Highest is endlessly shining light of absolute truth through Art of Life 1---72.

The manifestations of SSLA are more often now. And this actually beyond humans' power to control. There's nobody can go against the truth victoriously, so we cannot do anything against this, except to just come along with it. The truth will set you free. To be freed from bondage of bad fate is to come along with the bridging light of SMW ACADASTAR---SSLA.

There are morning and evening sessions of Art of Life 1---72, held at Dugukan site. The activities are for divine guidance, advanced inner connections, inner discovery, spiritual training and lightship initiations of people who will practice Art of Life 1-72. Inner truth must be well scrutinized first, so it must have data to begin with, from the Grand and Advanced inner realms.

The existence of inner realms cannot be denied. Although commonly, it cannot be seen with the naked eyes, but it is the absolute truth. Deep within silence, there are voices calling you for eternity life. Yet, at state of lower frequency, human awareness cannot fathom inner things, so man will just simply deny the truth of spiritual things. But the more someone will deny the truth of this, the more he will desire for it, since it is the essence of life. Destiny will bring you into this certain journey of life ---the inner.

There are good benefits that you will get in going deeper realization of life's meaning. To agree inner reality basically demands sightings of SSLA. The truth will lead you to spiritual maturity. To say, faith is trust and soul realization is will-power to succeed. Likewise, wisdom is supreme and knowledge is information that usually learned by a person after undergoing certain study.

It is man's responsibility to expand thy own inner awareness to gain higher soul realization. Man's fate depends on how he is being capable to discern and deal life. Power governs life that comes from the absolute invisible world.

Deeds will bear fruits, thus when you are upright, you will reap goodness out of it. Likewise, when you do bad things to others, you will also reap negative things from the labor of your wrong doings done.

It is the law of Cause and Effect/Karma expresses this way of life. Although the law of karma is not entirely materialized at all time, the way there were many people who suffered bad experiences in spite of the goodness they had done to others. Like the many characters mentioned in the bible, they were tortured, martyred and killed because they did good deeds to others. Clearly, by deeds, they gained bad fruits because they did good things to others.

So, why this happened that it is not what the law of Cause and Effect is actually teaching? Because actually in every Divine Law there is essence of truth that man must discover wisdom to discern its essence. Without realizing this, there is no wisdom at all to discern the true lessons of any divine law. Hence, it is difficult by someone without wisdom to discern the essence of any divine law.

Wisdom is essential lesson to attain in life, not to disregard any important spiritual principles; for noble reason, a person must practice missionary works for

illustrations of his true love to life, to God in the actual field of physical light service.

Light service will enhance soul realization, it can make the heart happy by the blessings of heaven. A man who is barren of missionary works will ignore to listen inner callings, refuse to serve what is noble purpose of life, so he will lack higher realization of the soul. Without action is equivalent to without faith, and devoid of both soul realization and action would mean lack of will-power to fulfill bigger endeavors in life.

The needs of soul cannot be satisfied by concentrating on all mundane attachment, so many who suffered painful regrets in life the way they had wasted life in vain. They trapped their hearts-minds in mundane desires. Instead of working for the things that will really matter in life, but they failed to do so.

In spite of their achievements in life, but their souls continue to starve for something material things cannot provide. They were without divine guidance, so regrettably they failed to realize the true essence of success. So, the summit of their existence were painful regrets, the way they ended their lives in great vanity.

Spending energies for all mundane reasons will ruin life. Riches but without spiritual foundation is not great. Such is very far from true victory every soul will long in life. The big delusion of man is allowing thy own heart to be trapped on crazy things and desires that will cause his own painful defeat and regret in the end. Material possession without the equilibrium of stronger spiritual foundation is a trap that will cause the big downfall to anyone whose life is persuaded on it, ---mundane attachment.

The things unrealized soul obtained were mundane, the way they forgot to work for the true essence of life. Regrettably, they were driven life into the lower planes.

Begin doing light service now; it's your inner calling to ascend life into higher dimension, so it is essential for you to fulfill divine mission, as every evolving soul deserves to rest life on higher dimension, after fulfilling certain inner calling, ---which is to serve the noble cause of light.

## CHAPTER 2

### SUPREME SUPER LIGHT ANGELS/SSLA

SSLA from the word supreme, it denotes the highest. In the hierarchy of Angels, the SSLA ranks the highest. They are the unnamable that they are infinite by nature, but for sake of our basic understanding, we will just try to describe them as SSLA. Since they are beyond words to explain, so our human understanding is not capable to discern their essence of life without wisdom of the Highest.

To carry out their message to the people on Earth, they regularly manifest on skies in lightship form. They are administrating planetary ascension, particularly supporting humans' ascension development of life in the planet into higher dimension of the Supreme Governance of Infinite Cosmic Family of Light/ SGICFL.

The bridging of SSLA DR will have opening for the people on Earth to attain higher connection with the Angels' realm. They came from GRADAM grand inner realm revealing secret of the inner through lessons of ACC or Art of Life 1---72.

The Sacred Spiritual Secret/SSS or Pyramid of Solomon 1--72 is spiritual science releasing information of inner teaching. The SSLA did not come from the planets-stars of any galaxy; they came from the beyond cosmos, specifically from GRADAM grand inner realm.

They are brighter than the brightest suns, with SMW ACADASTAR getting closer to the people on Earth, to ascend life in the planet into higher dimension. And the process of this ascension development is now going on.

Now UFO phenomenon becomes an intriguing topic, the way many people are fascinated to know the mystery of this. But what vital secret the people should realize about strange lights mysteriously appearing the skies? Are they really extraterrestrial beings so advanced in the evolution of life, with very advanced technologies? Or are they something else?

The mystery behind UFO phenomenon is widely spread, not to disregard individuals relating the incidence to biblical foundation emphasizing "The Near End of Time" reveals signs and wonders of the Son of God in heaven, accompanied by His powerful Angels.

The science of today attains remarkable progress of advanced technology, but without the people's awareness of inner things, no one could really know those mysterious lights manifesting is really extraterrestrials' or advanced technology, or something else. The things referred to *mysterious lights* needs inner awareness to discover the truth behind its mystery.

Illustrated by baby's cry moment life is born in the material world. Life is with many sufferings for the soul to

see or even experience. No baby is laughing nor smiling moment he/she is born in the physical existence, but certain cries. The soul prior to its birthing in the material existence is aware of the many sufferings that life may experience in the physical world.

But, at higher level of soul realization, man becomes aware of life's deeper meaning. So, the soul is able to realize the significance of birthing and dying; and as a rule, do not allow blinding ignorance to block your inner awareness and topple you down. And highly appreciated, to love life is to attain to know wisdom of the Highest.

The journey of life in the physical world is a mortal experience with mundane attachments and lessons to learn by the soul, either painful or blissful nature. This is how a soul will see the world of karmic colors. But the soul must not be trapped in mundane attachment, instead an incarnated soul must seek life's eternity meaning, which is beyond the truth of birthing and dying.

## **REALIZE THE ESSENCE OF TIME**

In the physical world a soul must not be misled dealing certain essence of time, especially in arranging life ascension into higher dimension. The incarnated soul must not fail to realize this, so not to suffer painful regrets in the end of its earthly existence.

True victory is certain, save for, in case of failure to deal certain significance of time. Consider time is awfully short, and you cannot reverse it once opportunity comes on your way, but you have failed to anticipate your chance to attain it, thus it will vanish. Be wiser on taking good care of the worth of your time, so you would not suffer painful regrets in the end.

concern is quickly running out? Human has no ability to control time. You can control your action, but not time. Through blinding ignorance comes to happen in a man, --- action is too late to rectify the wrong doings done in life.

Sunset comes to everyone, but without soul realization for the things that will really matter in life, man will lose his chance to achieve life's essential conquests. So, realize the essentials of time and do not waste it. Once it is gone away from you, you will be left behind without another chance on this current lifetime.

## **NUMBER LIFE ACTIVATION OF THE TRINITY**

Meanwhile, an ideal model of life's destiny is ---“Number Life Activation of the Trinity, of Man/Universe.” This modality is all about lessons of inner cultivation. ---That man should find ways to discern energies influencing fate. These energies mean the adjusters of destiny. To be

divinely guided is to shelter life in the light of the 'Most High' by coming into the bridging of DR of SMW ACADASTAR---SSLA.

Doubts shall be cleared-off after unlocking inner awareness with the aid of SSLA. The fundamental power of understanding is inner awareness; that man should achieve wisdom to satisfy the best of his very own soul realization.

A good data to begin inner discovery is strange lights manifesting on skies as if moving stars. Be not misled with those lights seemingly appearing mysterious, at long distance viewing but, airplanes, satellites or other kinds of

advanced technology. The common people can figure out either those objects are advanced technology or not, which in case of the latter, is mystery.

The regular manifestations of SSLA are visible by the naked eyes, as if moving stars that hover the sky coming from different directions, with strange energies, but devoid of sounds. Anybody can personally observe this phenomenon, especially at Dugukan site of Art of Life 1---72 exercises. To resolve its mystery may not be simple by someone to accomplish without wisdom, so it needs divine guidance from a genuine source to better know the truth of this.

And beyond space and time begins reality of the inner, which is difficult to grasp by just mere awareness of man, nor to believe without the essence of higher awareness. In discerning the inner demands activation of spiritual understanding by opening the energy channels of the body.

Those who have vices suffered the courses of bad fate. They are living the day-to-day wages of extremely materialistic way; the greed for power and violent acts against life and nature are constantly perpetuated by the

humans. Nowadays, people are less concerned with spiritual life, so, this caused darkness in the world. They agree there is the presence of absolute supreme creator or God, but they constantly reject their awareness to receive, align and adopt awareness of the inner.

When they don't wake up soul realization by allowing their hearts to be trapped on materialistic attachments, --- blinding ignorance will succumb their lives to collapse into total darkness. The planet is destroyed by its own inhabitants, the people by themselves who created violent acts against life and nature, by which without them realizing earlier on their wrong doings done against life, -- - by nature itself, indubitably they will suffer bad fate in the end.

The world is tricky and unkind to anyone without stronger divine guidance. A blissful soul will not stumble life in darkness. To attain higher level of inner awareness will make someone tougher in life, considering more of the teachings in a materialistic world are devoid of inner lessons that will make someone sage and uplift soul awakening. The knowledge being nurtured in a material

world merely articulates mundane side of human understanding.

Calling them UFO will make a sense considering the thing being described is unidentified flying objects/UFO. So, this subject isn't yet understood and discerned by science or human understanding.

Mystery of higher dimension where the current science in the planet has not yet successfully cracked the code of advanced inner realm. Other than mysterious lights anywhere in the planet, which may be presumed as advanced technology, if not could be differentiated with higher spirituality.

To develop substantive inner awareness requires stronger divine guidance. SMW ACADASTAR, is the key secret to achieve higher soul realization of inner mystery. Don't be deceived with mysterious lights manifesting the skies. Either those are advanced technologies or part of inner reality, since technology and inner reality (spirituality) are obviously different way.

phenomenon that seekers of truth should not fail to know. Human awareness without the function of inner knowledge cannot perceive advanced dimensional energy; so, it will just normally speculate the matter.

Today, UFO mystery is linked with different versions of belief; some people relate in various methods of “psychic visioning” or the natural way of intuitive perceptions employing far beyond five physical senses of seeing, hearing, tasting, smelling and touching. Could there really be a good merit available to those who believe that Extraterrestrials are coming to save the humans and the entire planet from total destructions? Perhaps, the mind could easily imagine and speculate things. But what’s really the truth behind this secret?

What realization that someone will get without inner awareness, especially in discerning secret behind mystery lights/UFO? In fact, some views strongly contradicted and emphatically declared - “**Behind UFO secret is Dark Energy,**” a reptilian power carrying hidden agenda to enslave the entire humanity for greed of power dominion over the entire planet.

Nowadays, we can no longer avoid UFO topic as there are enthusiasts exploring research on the subject, while many

people believe that ETs are coming to save the planet from horrible destructions.

Considering the two sides of a coin, either which concept is right or wrong, so far, it would not really matter at all to someone who really knows ACC. Expressing the fact that --Technology and SSLA are two different WAY that seekers of truth should not be misled to realize the truth, which the latter pertains to spirituality and the former is material thing, results from the advancement of science today.

When people reject divine illumination there shall come a certain point of time horrible events shall really experience on the entire planet. By turning the people's awareness in all materialistic way, so moment shall come they cannot any longer differentiate what is inner truth and what is mundane attachment. Either they are watching SSLA or UFO illustrating power of advanced technology. Discover the truth and know what is behind the mystery lights emerging on skies, nowadays.

## CONCEPT OF MASS LANDING

Consider those who believed in predictions, they are expecting the probabilities outlined in predictions. But relying your trust in this practice may be extremely pitiful and maddening arrangement of training, especially when the foreseen thing/s outlined in the prediction will not happen.

You may believe the SSLA shall launch mass landings on Earth, and perhaps, ---you may really expect too, it will happen. But what happen, if this would not be really the case. Anyway, honestly, you may believe the speculation knowing by yourself that you heard it from a famous medium predicting the event. Well, faith is good, but what if your faith is not really parallel with the real truth?

In fact, the answer is very frustrating exercise of belief that you are unluckily indulging yourself, and sad to say, you're a victim of your very own blinding ignorance. The SSLA did not make a promise of any mass landing on Earth, but certain lessons of soul realization, --- the people should obtain and discern reasons and purpose of incarnating life in the planet.

The central point of WATCH A DIVINE REVELATION is fulfillment of life's ascension into higher dimension. So, any conviction foretelling the SSLA shall launch mass landing in the planet is unreliable, which such prediction most likely comes from personal assumption of people who lack soul realization of the subject. Unless, in the case of UFO---technology would be very possible to occur mass landing on Earth.

Divine guidance leads to higher spiritual growth and action with precise direction of SMA will remove blinding ignorance. The revelation of SSLA in the planet is everyone's recognition of inner awareness, soul realization and arrangement of life's ascension into the Absolute Truth.

Precisely, it would not be the issue of mass landing, which will merely amaze or frighten the people by demonstrations of power of advanced technology; instead lessons of soul realization of the people to merit eternal life. Practical lessons demand certain action and right direction, to meet the victory of life's true ascension.

The concept of mass landing has no actual application of lessons released by SMA. It has no good merit to the true ascension of life. Inner awareness is essential, to know

what right training for genuine ascension of life into higher reality. It is from the divine guidance of SMA for all people to achieve higher soul realization.

Airborne technologies could do mass landing, that is without doubt and it's normal. But the organization of SSLA is completely a different case considering they are not technologies. The SSLA do not do mass landing activities on Earth, but certain lessons of training awareness and soul realization for the people. The entire humanity should learn how to receive, align and adopt higher energies of super light nature to survive, until life can finally ascend into higher dimensions.

The omnipresence nature of SSLA expresses certain essence of being present everywhere. In the world over, as they are already in the extraterrestrial planes, beyond and beneath the terrestrial planes, heavens (all over the places) even in space and time the SSLA are present.

To mention some essentials the people can achieve by practicing Art of Life 1---72 are divine guidance and connection, activation of inner awareness, soul realization and many more, but I will not elaborate them all here. People who are working with their progressions of true ascension in the organization of Angelic Union will realize

inner reality. Now, the key is revealed in WATCH A DIVINE REVELATION.

Life is glorious for those who will respond divine callings and wisdom will come for those who will receive divine guidance. The power of understanding without activation of inner connection is never attained. Activities of inner awareness, all for ascension development training programs are available through Dugukan. Seek and you will find. Attain wisdom and you will know the inner secret of advanced realms.

## **DIVINE HEALING**

The NORDIUM URSICAM, fourth Command of the SSLA is providing divine healing of life for the entire cosmos. They are actively supporting the planet's ascension development program, with their presence perceivable on skies above, especially during exercise of the Art of Life 1--72.

People are visiting Dugukan site for divine healing and holistic exercise. By the divine grace of God Most High, they were healed by the NORDIUM URSICAM divine

healing transmission through the Sun Core Healers (practitioners' of Dugukan). These people healed were living witnesses of heaven's grace healing sickly lives. The people who visit the site continue to grow, especially during every Sunday's healing service and special events of Dugukan, in the site.

Don't give up regardless of whatever trials you will encounter in life. Behind the clouds there is enough light. To give up hope is losing certain opportunity of victory. And it is a big loss for the soul who will give up hope. Come to the divine healing of SMW ACADASTAR---SSLA, particularly NORDIUM URSICAM Command.

There are illnesses caused by negative karma. And the cure for this kind of sickness is divine healing. The gross physical and energy bodies should be treated with divine healing energies, particularly the affected parts. Imbalances of energy or negative energy contaminations can cause physical disorders, and once, it is properly treated with divine healing, it will be healed, so good health will be restored.

The system of divine healing released by NORDIUM URSICAM is a sort of mystical healing that offers inner connection to the people who would connect with the

SSLA. During online drill of Art of Life 1---72 exercises, the NORDIUM URSICAM shall appear on skies, so that would be a good chance to ask the SSLA support.

The NORDIUM URSICAM Command divine healing system is performed by the Dugukan practitioners. The very essential thing to know in every system of energy healing is shielding, which the NORDIUM URSICAM encourages all healers to learn powerful shielding, for security reason on their side. While they practice healing to their patients, it is very necessary, on the healer's side, to have shielding, so not to be succumbed with possible negative energy contaminations and negative psychic attacks.

Always use energy shielding before you will do energy healing to your patients; that is to protect yourself from negative energy contaminations, which possibly you may acquire it from your patient. Doing energy healing without energy shielding will expose your body to a high level of risks of negative energy contaminations, which might be very harmful to your health. You are able to get powerful shielding from NORDIUM URSICAM fourth Command of the SSLA.

Know that when you do energy healing, you are connecting your energy to the patient. And in return, your patient as well, will unconsciously radiate negative energies to you that may affect you with harmful negative energy contaminating your energy body. If you have without shielding, riskily you are vulnerable by your patient's negative energies. Many healers who are not aware of this case got sick due to negative energy contaminations.

Projection of colors as your means of body shielding is not strong enough self-protection; sooner or later, such color that you project for shielding of your body will fade, thus making you very vulnerable with negative energy contamination. Use powerful shielding on your practice of energy or divine healing. It is necessary that you can repel all negative energies, especially energy that comes from negative psychic attacks, which are very harmful to the health.

To help the healing of life is good deed that such act creates good karma to someone who does it. Although, this act is not absolute, considering not all the time this practice is advantageous on the healer's side, especially for those who don't have shielding in their energy healing practice, so, they suffered negative energy contaminations,

negative psychic attacks or any other negative consequence, as a result of doing the task without powerful energy shielding.

Little knowledge in the practice of any of the mystical healing methods could be very dangerous to someone who would try doing it without appropriate guidance. So, always observe divine guidance on your divine/energy healing practice. Do not forsake wisdom, primarily protect yourself first, before you will help others. Actually, observe this divine guidance on your healing practice, since it is for your very own benefits of good karma.

Come to SMW ACADASTAR; know HIM in the true essence of heart wisdom. Don't fail to recognize the ultimate savior of life. He is now coming in the clouds of fire, together with HIS powerful Angels ---the SSLA.

Observe true wellness on your life, focus on nurturing good health. The love to life and nature is certain noble purpose of life. Applying commandments of good health as your daily exercise will make you physically and spiritually healthier and stronger.

## CHAPTER 3

### SEARCH FOR TRUTH

A heart that aims to know the essence of truth is longing for life's deepest meaning. It cannot hold on the mind to fantasize in the great ocean of hollowness. What is life's biggest search? Wherever the heart finds fulfillment, it is where the soul belongs.

Heart wisdom is able to deal all the consequences in life. Be wise, attain wisdom; to be wise is not to be inevitably good. There is vulnerability in someone whose life is without inner shielding. The negative vibrations on your surroundings are energies destructive to your life, so be wiser with higher awareness dealing things; know that mere intelligence is not the complete key of ultimate success.

Attaining wisdom is far better than merely persuading knowledge. To become victorious on your endeavor towards life eternal meaning is mastering Art of life 1---72. Expand your inner awareness to comprehend what's life deeper meaning; begin with inner discovery by taking lessons of ACC. Relax your mind and begin to explore your awareness on life's eternity meaning.

Often the mind is filled up with many doubts, while the heart is constrained with indiscernible energy pushing or pulling the soul to orbit life on its web. What the soul's biggest hunt in life is mystery behind inner secret. The people should discover and learn the essence of stars and planets to victoriously ascend life into higher dimensions.

In the beginning of understanding, life is big mystery. In every soul's journey in the stars and planets, are clouds of endless query. By which man/soul will see mountains of yoke and ocean of doubts to seal up the mind with blinding ignorance and niggling weaknesses. The soul will experience a journey of life without much worry by learning the way of Art of Life 1---72.

DR of the "Most High" --- AMISRA through the SSLA is channeled in the cosmos for the entire existence to experience eternity life. And humanity in the planet can connect with the DR by learning lessons of ACC, so they will have good arrangement in life for the final day of deliverance or ultimate ascension.

The people who are able to receive, align and adopt higher frequency of the Angels' realms on the final day shall ascend life into higher dimension. But devoid of knowledge on this concern could be a big failure to

anyone's life who does not have awareness with what life's ultimate reason in the planet. The soul's biggest triumph in life demands divine illumination; accordingly, achieve wisdom to realize your genuine ascension of life

## **BUILDERS OF LIFE**

The SSLA are builders of life before and after creations of every formation, the cosmos. Their existence came from the no Beginning and no Ending. They are the infinite Co-creators of every supreme creation with the "Most High" or what the common people called God. In the beyond reality of space and time, the SSLA do come from the no Beginning and no Ending---Omnipotence, Omniscience, Omnipresence.

Welcome the light of SMA --- SSLA in your heart, and with your willingness to achieve the most powerful foundation of inner truth, you will receive the blessings of heaven. Attain to know SMA --- SSLA blessings and don't fail to perceive them deep within your consciousness. Your divine connection with the SSLA by practicing SMA is what your life's best protection. Activate inner awareness by way of enhancing your energy channels now.

Consciousness once triggered with powerful energies will activate higher awareness, the essential element to derive a solid foundation of soul realization. Victorious life needs wisdom to derive a right judgment that usually comes after having found the truth of supreme ultimate.

It is man's divine calling to connect awareness with the "Most High," so his life will be embraced by heaven's grace. Heaven is calling every little star in the planet to ascend life into higher dimension, the reason why this bridging light of SMW ACADASTAR---SSLA is calling you to receive, align and adopt divine inner connection of the Highest.

Aside from Art of Life 1---72, SMW ACADASTAR released the Rainbow Bridge of Light/RBL and Dugukan Lightship Meditations/DLM, Method of Advanced Astral-Spiritual Study, Divine Healing System, Shielding/Armor of Light.

Ponder your thoughts and look for possible answer - why life has to be in this way? Seeking the answer for life's true meaning, but life is a big mystery that the mind could contemplate, and until consciousness comes to attain higher realization of the soul.

Contemplate what is the truth of life, until you will get to the bottom of your final queries, are things that will really matter on your very own development of the soul. Fundamentally realize the truth, to understand life without wisdom is very hard and precisely there no way to achieve it, except through wisdom of the “Most High” or through the force of the Spirit. Explore your mind, there are energies pushing or dragging life to experience the different courses of fate.

## **SIGNIFICANCE OF KNOWING GA AND SM**

What's life remedy for mountain of unanswered questions? Ask your Guardian Angel/GA and Spiritual Master/SM, so then, your prayers will be answered by heaven. Ignore your GA and SM by invoking to go directly to God and your prayers would be very less answered. Why? Because you have higher connected bodies in the Angels' realm that you cannot successfully ignore in coming along with the Highest. So, learn to realize the significance of your precise GA and SM, and you will realize the truth.

No man can assuredly successfully go through the short-cut way of knowing or communicating the “Most High” without first attaining awareness with thy very own GA and SM. Inner awareness must be activated first, so man has ability to consciously receive, align and adopt with the advanced.

Man should realize his own divine union with the inner realm to attain higher soul realization. By nature, itself, man or the incarnated soul is not allowed by the Supreme Law of EQUILIBRIUM to disregard his channels of Angelic unions.

Realize the truth, God is a consuming fire that allows nobody in the mortal nature to go with the short cut way in coming into the ultimate divine union with the Highest. In the evolution of soul, there’s a need to fulfil life’s lessons. And nobody has power to separate thy self from the channels of thy very own divine unions of life or higher connected bodies. The supreme law of Equilibrium does not allow the soul to break what life’s Absolute Divine Union. So, by nature itself is teaching the soul to be complete. God provides way for each soul to see the way of supreme ultimate.

Man should activate inner connections with SMA --- SSLA to be able to receive, align, and adopt higher connections with the ultimate overseers of supreme creation. Be able to know your precise GA and SM. Also realize, you are not alone, there are Advanced Elementals, the way there is SMA and the SSLA.

Here is pyramid of Life, the Advanced Divine Unions; a. physical and astral bodies, b. advanced elemental bodies and c. supreme super sight bodies. Likewise, the foundations of inner realities are: 1. Advanced Elemental Realm (MORCA advanced spiritual realm) and 2. Supreme Super Light Realm (GRADAM grand spiritual realm.) 3. The “Most High” (AMISRA supreme grand inner realm)

Life’s mortal existence is rooted in the physical realm, sharing and taking energy with the elements of nature. Human’s higher ascension in the organization of Advanced Elemental Union ---MUNHARNIM (female ray) and BELHANRIM (male ray), they are Angels next to the formation of SSLA. But, unlike the SSLA, the MUNHANRIM and BELHANRIM Angels can get closer with the humans without causing them to burn with fire. So, they are not the ones described in the bible; God is a

consuming fire. Deuteronomy 4:24 God is a consuming fire.

## ORDER OF ASCENSION

Human's order of ascension; first: (1.) into the formation of Advanced Elemental Foundation, second (2.) into the formation of Super Light Foundation. Divine guidance of SMW ACADASTAR revealed this vital information of inner truth for the humans to complete their ascension of life into higher dimension.

After death of the physical body a soul will linger life in the astral realm. The said realm is not the ultimate paradise, but still a formation of mortal existence filled with different karmic colors, for further process of soul purifications. It's on the people side to activate inner awareness and get advanced energies. Meanwhile, the grand inner realm GRADAM is unreachable by the mortals without final initiation of SMW ACADASTAR --- SSLA.

It is necessary to realize the ladders of life's true ascension into higher dimension. Activate your inner connections with the SMW ACADASTAR --- SSLA. This is necessary

thing that must not be omitted in your life, as the SSLA are direct mediators between humans and the Most High --- God.

Why there's a need for mediator between the "Most High" and the people in the planet? It is expressed in the bible --- "God is a consuming fire." So, it can burn those who are not fit to it. And without the bridging of DR of the "Most High" the humans are not capable to get closer with God's true nature of DR. This is similar to a soul in the astral vehicle that cannot endure to face directly to the consuming fire nature of God or real light of the "Most High."

## **GOD'S REAL NATURE OF DR**

God's real nature of light was described in the bible as consuming fire, because people in antiquity described any mysterious light they had witnessed into fire. So, the common nature of God's manifestations where the ancient people had witnessed were described by them into fire.

Mortals cannot survive meeting directly with real nature of the Highest. That by mere revealing of God's true DR is enough to consummate final judgment of the entire planet for all mortals. People in the planet shall be judged

according to their very own achieved spiritual developments.

How humans are being capable to survive the supreme DR of God? Essentially, by fulfilling the SMW ACADASTAR---SSLA lightship initiations/LI, so not to be consumed by God's supreme DR, which will be revealed on the entire planet during the final judgement day. The ancient bible writers were very clear on their accounts pronouncing God is a consuming fire. And in "WATCH A DIVINE REVELATION, God the "Most High" is described into Supreme DR and the highest Angels, as SSLA.

People in the planet shall not be judged by God's wrath, but by their very own individual deeds. Humans do need to arrange their lives now before the final unveiling of supreme DR. The incarnated soul must know how to survive the process of purification for ascension of life into higher dimension, which is influencing the entire universe. You must learn how to receive, align and adopt the supreme DR of God prior to the final phase of unveiling of absolute truth in the planet.

Spiritual development is determined by how much the physical body transformed into the best of inner light. Soul realization covers its entirety: --- the physical, astral and spiritual planes. Realize God is love, so the Highest

will never penalize humanity with vicious ultimate perdition. Final judgement happens through revelation of supreme DR on certain apex of planetary ascension.

At higher stage of planetary ascension carries waves of super light energies that nobody's power in Earth is capable to change this development; instead, whoever does the Will of Heaven will victoriously ascend life into higher dimension.

People who failed to respond their divine callings for lessons of ascension by SMA will not survive to face the supreme DR during the final day, thus they will be consumed by God's fire on the zenith of planetary ascension development. Likewise, whoever ignores divine guidance cannot attain wisdom. Revealed by SMW ACADASTAR how the humanity is able to obtain heavens' necessary support for the final unveiling of Absolute Truth. Wake up and realize the truth now.

WATCH A DIVINE REVELATION is uncovering the way of true ascension; humanity shall not be punished by the Almighty's wrath, except by the people's inability to face God's ultimate DR, precisely, by their failure to attain the key of true ascension.

The apex of ascension happens in the planet during the final unveiling of supreme DR of the “Most High,” which will purify the entire planet and everything in it. All things are temporary, it will pass away. Every mortal that can align, receive and adopt super light energies from SSLA, in the course of planetary ascension shall ascend life into higher dimension or paradise (BELHANRUM.)

A certain power that governs life is the supreme law of equilibrium, for both the supreme and non-supreme existences. Anybody who violates the supreme law of equilibrium, without wisdom, shall suffer negative outcomes of fate.

Final salvation goes to people who will prepare life’s ascension through the lessons released by SMA, the ACC--  
- Art of Life 1---72. Practitioners of the said lessons can easily connect with the Angels’ realms.

When the “Most High” decrees voices of nature will roar, so no one can disobey. Life is for the work of light and all deeds, which are depraved and violation to the supreme law of equilibrium carry negative fruits to someone who will transgress the law, without wisdom.

The essence of enlightenment is wisdom. It is very important to attain to know the way of divine truth. ---To be enlightened requires action to receive the Holy Spirit. Someone without good foundation of soul realization cannot agree the lessons of inner realm. For him/her, those things are just crazy, fraud and non-sense. On the other hand, at Dugukan site, the SSLA are giving energies to the practitioners of ACC for ascension of life into higher dimension.

Each one will be judged according to thy very own individual spiritual growth; the gauge to someone's spiritual growth is visible by deeds, so have wisdom to discern the mysteries of life and attain higher realization of the soul.

Realize the truth of SSLA in WATCH A DIVINE REVELATION. The last redemption for all humans in the planet is coming. He who cannot accept lessons of the inner realms rejects the Holy Spirit to dwell on him, so he cannot attain wisdom of the Highest. Man's awareness without wisdom cannot grasp certain essence of truth. In the world now, is loitering false/bad spirits that treacherously mislead the people who lack wisdom, without divine inner guidance and higher soul realization.

It is the expectation of many believers in faith, time shall come great tribulation happens to experience the entire planet. It is each one's responsibility to arrange life before the final event happens on Earth. Get ready, tremors of nature will roar, do not be surprised by whatever dreadful events, which shall come to try life in the planet.

Spiritual awareness and higher level of soul realization are essential things; seek the right direction in life; awareness is one thing you should work for life. Rather than just mere relying on belief system, but without action, you must get higher level of soul realization. Nobody can attain higher level of soul realization without action; likewise, no one can strengthen up belief without faith.

Victorious life comes from the blessings of heaven. Everyone needs divine guidance for inner connections. The said connections are easier to achieve in the bridging light of SMW ACADASTAR---SSLA on their current activities in the planet called "WATCH A DIVINE REVELATION. For trials disrupting the balance of life, peace and harmony of the people and nature, --- the SSLA comes the saviors of life, planets, and stars.

## PREPARING FOR SALVATION OF LIFE

Satan and his negative angels know their time is short, so they do all their means to destroy the people of light. Responding inner calling is preparing life for the days of great tribulation, ---to safeguard life against the different courses of evil.

Preparing life for salvation entails certain endeavors of appropriate spiritual training and development program to face and overcome whatever trials. The manifestations of heavens' wonder are exposing signs of coming bigger events in the planet. Expand your divine connections with the "Most High" ---God through the bridging of DR of SMW ACADASTAR---SSLA.

A certain soul realization encompassing definite actions is to look for the light of ultimate truth. "Know Thyself." There's voice echoed from the great beyond calling you to realize eternal life, thus do not ignore to listen it. Realize that from the great beyond are voices in the inner that you must discover and realize the truth. Know Thyself.

The "Most High" is supreme ultimate DR that never punishes humanity by wrath. It's just the perfect nature of Almighty's light, -power where the mind cannot simply

explain. Ponder your thoughts of what the bible said, --- God is a consuming fire. Anticipate inner awareness of this truth and ask for wisdom of God to shine in you, so soul realization will come to light on your consciousness to discern certain mystery of God, the highest.

Fundamentally, get to know what God's secret names prior to learning the deeper mystery of the Highest, which pertains to the unnamable and unfathomable side of the Most Absolute, --- for a simple reason; the mind cannot simply grasp the supreme side God's real nature, since it cannot be simply explained by words alone.

Failure to realize the truth of the Highest during the final ascension development of life in the planet would be the final downfall of those who are blind of the inner mystery of God.

It's not all mere belief and reasoning, but soul realization to the things that will really matter in life to the fullest of life's final ascension into higher dimension or what the common people in religion called life's eternal salvation.

Many people who will just directly reject divine guidance, without realizing, this matter is necessary for life's better arrangement of getting to know the way of true salvation.

Divine guidance leads to inner discovery and understanding of the mystery of God. WATCH A DIVINE REVELATION 1---72

The truth could be black and white or light and dark. And judgment by God's wrath is not really the case of supreme ultimate and perfect God. Other than by lack of soul realization of the people to realize God's super light existence and the Hosts of Heavens, so their mind will simply speculate life's ultimate perdition during final judgment day, but it does not mean really the case. Definitely, it is not by the wrath of God the people is judged, but by the true nature of the "Most High", which is a DR that can purify every impure thing.

The DR of God will purify the entire planet during the final day of ascension, where in the process of cleansing, -- - every adulterated soul or thing will be cleansed up by super light energies or what the bible described as consuming fire nature of God. So, the DR of God is super light or brightest light of all the lights that can cleans up impure things of the entire universe. Actually, there is no enough words to explain it. Clearly it is not by God's wrath the people are judged, but a certain process of purifying adulterated souls/humans/things by pure energies or what we describe here as super light energies of the 'Most High.'

Tougher inner secret mystery of God shall be revealed on entire planet where people in different nations of the world shall attain deeper soul realization. While many of them also will lack of their inner understanding due to their too much material attachment and blinding ignorance. Meanwhile, concept of perpetual damnation on judgment day is just an expression of humans' lack of understanding about the true meaning of God's consuming fire nature.

This referred consuming fire nature of God will burn all things, which are directly exposed to it. Being the highest power and the brightest light of all the lights, certainly brighter than the sun, then who's mortal being of the entire cosmos is capable of facing directly to God? Without divine guidance is very hard for human's understanding to grasp inner mystery of the "Most High."

Attain divine guidance and expand your inner awareness, so your consciousness will have certain essence of soul realization. To discern mystery of the "Most High" is fundamentally getting familiar with the heaven's signs revealed on activities called WATCH A DIVINE REVELATION.

Your lack of soul realization about the consuming fire nature of God renders you to believe on concept of perpetual life's fire damnation. But it's not by God's wrath that each soul or thing will be judged. Consider God is a sun of fire that can naturally consume things materially and directly connected to it. So, it is really the actual real nature of God's DR, a consuming fire that can burn things directly connected to it.

The blessing of SMW ACADASTAR---SSLA is essential process of transforming material physical body into spiritual eternal body. Human's mortal physical nature of the body is not capable to sustain God's final revelation of supreme DR without realizing earlier the truth of Supreme Universal Name/SUN.

Even, at this point of time, majority people are not yet ready to face higher level of ascension development of life in the planet, into higher dimension, especially of their lack of deeper understanding about God's real nature of DR, which can even burn fire of the hottest sun or the cosmos itself. Inner knowledge is essential for every endeavor of deeper soul realization; as wisdom demands effortless action to attain it; likewise, soul realization demands knowing of certain light of supreme heaven, to obtain it.

Imagine yourself witnessing God's appearance in the planet where everything because of it was burned by fire that came out from the body of God. Let's say everything was burn, except you; God had chosen you to witness certain EVENT of time, so you could account them for the next generation to subsist on land.

How are you going to account God's work that caused everything to burn by His appearance, including the entire humanity? How would you describe God that caused everything to burn. Would this be what the ancient writers of the bible were trying to tell the people --- God is a consuming fire? Of course, is it. Wake up! Your journey into the final realization of inner truth is about to unfold after pondering your thoughts on this mystery light.

Think of the bible mentioned how the entire surface of the land and everything in it shall be consumed by fire on the days of God's wrath. Considering such horrific events mentioned, --- how are you going to account God's love to the people, which by mere appearance of His true DR caused the entire planet and everything in it to burn? Which without wisdom is naturally hard for man to discern what true meaning of God's love. The human understanding can be easily misled and succumbed with wrong judgment. Hence, wake up and achieve divine guidance of SMW ACADASTAR---SSLA for your higher soul realization.

You can simply picture out how God will implement the so-called final judgment, which is believed ---- aim to punish all the sinners of God's will, by burning the planet, the people and everything on it, as it is what the bible described scenarios of horrible destructions where "the entire surface of the land and all things therein shall be consumed by fire on the days of God's wrath.

So, time comes the "Most High" will reveal the true DR, which is supreme by real nature for final deliverance of the people, as it is the long aged prayers of the people, a day shall come, God will descend from heaven accompanied by powerful Angels, to save them from great tribulations or sufferings of life in the world.

Meanwhile, revelation of SSLA does not contradict the bible's teaching; instead, it offers stronger aid for every seekers of inner truth to get deeper and wider views of its esoteric teachings. Anyway, when it comes to the point of purpose, the bible is perfect, but when it comes to the points of its contents, clearly the bible lacks of complete information. There is wisdom that can be found in the Holy Scripture, so long as there is presence of the Holy Spirit to give you divine guidance.

Unpleasant emotion creates a narrow mind, while the power of understanding is determined by how much wisdom dwells on your awareness. In this point of view, checked out your awareness, either you have wisdom or mere knowledge before advancing your steps into the world of inner discovery.

Many believers pray to God for their final deliverance from dreadful sufferings of life in the world. And at the right time, God will answer their long-aged prayers. --- God will manifest certain light of supreme DR to the entire humanity. But in that case, the big question is, do the people are really ready to face God's consuming fire nature, considering the truth that God is a consuming fire?

Could it really be the "Most High" is a wrathful and jealous God that shall come to proclaim perpetual punishment against all sinners on the final judgment day? Okay, deeply think of the truth. Realize God is love, so the supreme master of heaven --- the "Most High" is not a wrathful and jealous God, except the ancient writers had used allegory of a wrathful God in trying to describe God's supreme DR, which is not tolerable by every mortal being in the state of carbon life foundation/666 periodic Elements.

Everything in carbon life foundation/666 cannot survive supreme super light power or DR of the “Most High,” when it is directly connected and exposed to it. Salvation of life shines in WATCH A DIVINE REVELATION. Wake up, don’t miss your chance to discover certain essence of ultimate truth.

There is logic why the ancient writers used a metaphor of “wrath” on their attempt to describe the real nature of God, which is consuming fire that can burn anything, since it is super light or brighter than the sun. And nothing can survive against the heat of the sun. All things in 666 life foundation cannot survive having direct contact with what we called supreme super light energies. Therefore, the humans cannot directly face God’s true DR without soul realization and final initiation of SMW ACADASTAR---SSLA final initiation.

Realize how the SSLA will appear on skies bridging DR of infinite truth in the planet. Their revelation is with precise lessons for everybody to learn and realize certain essence of **Inner Reality**. The WATCH A DIVINE REVELATION is everything done with tangible lessons to facilitate every seeker of eternal truth to achieve the best of soul realizations. And the final preparation for life’s salvation

It cannot be simply grasped with just mere power of human understanding, considering the essence of its mystery creates numerous puzzles where the people wanted to know.

But mysteries behind the phenomena are not simple truth that can be simply described as extraterrestrials or higher beings with advanced technology from the outer space.

The mystery behind it fundamentally calls for lessons connecting inner knowledge or spiritual thing, instead of advanced technology, knowing, there is big difference between technology and spirituality. Man's wider view of understanding begins with his activation of higher awareness and connection with the SMW ACADASTAR -- - SSLA.

SMW ACADASTAR --- SSLA as referred by the common people to UFO are revealing vital truth of life through WATCH A DIVINE REVELATION activity. And the rest of unusual lights manifesting in the skies, but not SSLA call for different gist. The SSLA is inner eternal truth, while UFO could be advanced technology, - not eternal.

UFO visible on sky but without vibration of stronger energy is not SSLA. And this thing can be easily sensed by the practitioners of Art of Life 1---72. Awareness of spiritual energy determines either the flying object is pertaining to spiritual/inner truth or advanced

technology of the mortals. Realize the truth, - technology does not mean spirituality at all.

Practically, know that not all lights that hover on skies are part of secrecies. Only someone who is without inner awareness can be easily deceived. Such petty or mediocre observer might be misled by the objects being observed above are airborne technology. Furthermore, what an extra thought-provoking episode on mystery lights are strange gleaming objects, which on regular basis appear on skies, especially above Dugukan site of Art of Life 1---72 exercises. Ponder your thoughts on this, what's going on.

Due to stronger direction of SMW ACADASTAR--- SSLA in WATCH A DIVINE REVELATION, lessons of divine illuminations are released to people who will do Art of

Life 1---72. Although certain essence of the said Art has not yet spread to the masses, but positively it is working well to the practitioners of ACC, as they are multiplying in numbers now.

Since topics of mystery lights are expounded by several enthusiasts and convictions from among them said ---they are ETs, Higher Beings, Star Brothers, or Aliens visiting the planet to aid the inhabitants and save the planet from its total destruction. While other views said, ---UFOs are aliens with hidden agenda that intend to enslave the entire humanity through power dominion over the entire planet. Likewise, several other views are trying to explain in different versions. Hence, more people got confuse with what's really going on the mystery lights progressively manifesting the skies, nowadays.

However, the SSLA revelation does not revolve on UFO subject that it orbits on certain program of divine illumination. So, what happened in WATCH A DIVINE REVELATION is a clear pronouncement that the SSLA is not ET/Alien Command with advanced technology from the outer space, expressing the fact that the SSLA does not come from any planet, star or galaxy. The SSLA or Angels of the Highest Order of Supreme Light come from the beyond stars and planets, citing their existence come from the grand inner realm. And expressing the fact that planets and stars are not inner realms, but physical

material existence of heavenly bodies or space called the Universe.

The SSLA is currently illuminating higher awareness of the world, for life in the planet to ascend into higher dimension. SMW ACADASTAR is the source of Inner Knowledge who give this divine calling for everybody to listen and discern the message of Heaven.

Therefore, such allegations is just a definite speculations from people who don't have soul realization for the things that will really matter in life.

Realize how the humans are being capable to survive super light energies of the SSLA, as this nature of energy was described by the ancient writers "the consuming fire nature of God." Human's nature is not capable to get into this kind of lightship, so any allegation articulating human abduction by the SSLA is totally not true, so a big illusion.

Information released by SMW ACADASTAR is to illuminate the people. --- Human's nature of life cannot really survive having direct exposure with super light

energies of SSLA. And such the reason why there is a need for every human being to pass the true lesson of life's ascension into higher dimension, which are lightship initiations/LI.

Consider the truth, how come human being could be possibly abducted into the lightship of SSLA? Besides this lightship revealed here is not actually a vehicle used by the Angels to transport themselves, but the lightship being mentioned here refers directly to the super light bodies of SSLA. Hence, any theory of human abduction by the SSLA is a big illusion, which has really no way to happen, in anyway.

bridging of DR of the “Most High” for your final ascension of life into higher dimension.

Meteors shall crash in the planet causing mega destructions, event of mishap will brutally terrify the world. The people shall live in fears anticipating cataclysmic events to devastate the land; volcanic activities under sea and in the surface of land shall cause powerful quakes and tsunamis. Cosmic activities and more strange signs will continue to appear in heavens reminding the people to discern life’s ultimate goal of existence.

Ponder your thoughts in the vast universe, you’re not alone. Begin perceiving by yourself that you have families somewhere on stars. So, let your awareness come into oneness with all the lights, with all the stars. It’s your time now to realize your own oneness with all the lights, --- the universality of truth.

As science continue to grow and the advancement of technology remarkably developed, likewise, cataclysmic events shall be more widespread. Greet famine shall cause serious shortage of food supplies, many people will suffer hunger and sicknesses. Many lives will starve to death, while those who cannot wait to die will resort into committing crimes against property/life, just for them to survive the crisis.

What man's basic need to survive the trials of time, either poor or rich, but must learn the art of survival by attaining higher spirituality. Every life in the universe is within the principle of Spiritual Martial Arts/SMA or "*the art of toppling down.*" By the course of different experiences, you must survive life to win your price. Life is the treasure of light.

The problem of global warming will get worst to affect many imbalances of nature. While the planet is experiencing transition of energy due to its ascension state, the energies that shall experience by its citizens are ever changing too. Without the people discerning this transition of energy, they will experience energy imbalances too causing them to lose healthy life.

By the advancement of science, time shall come for demonstrations of power of advanced technology that will greatly amaze the people causing them to less value the truth of true spirituality. The people will adorably patronize power of advanced technology, instead of developing true spirituality. While some even consider themselves already likened to God, except the realized ones. They will become stronger on their soul realization to adhere life's ultimate truth with the "Most High."

Inherent in the course of planetary ascension are different events that will influence life in the planet. Nations' conflict against nations shall consummate World War III. Nations will employ weapons of mass of destructions; the terrifying thermonuclear wars shall shock the entire planet to wipe out many people and cities.

Meanwhile, people that practice methods of mystical arts beneath the shadows of the "Most High" shall have bigger chance to survive great upheavals. Wake up to the truth of light. Find your best shelter now, to survive your journey of life into the best of light.

Meanwhile, war against mysticism versus mysticism shall begin on the WW-IV onward to the WW-V or galactic and intergalactic battle. Two great kingdoms shall fight for power dominion of the universe.

The WW-3 shall illustrate power of advanced technology to proclaim power dominion over the entire planet. Bigger powers will be awakened, so great warriors of planets and stars with greater powers and ability shall come on board to participate the events.

At higher point of planetary ascension implies inner activation of cosmic forces, where those who are able to receive, align and adopt higher energies of inner realms will have stronger advantage of life's survival. At certain

higher level of the planet's transformation aging process will stop affording those who can align with higher frequency to live life for longer years, with body healing, rejuvenation and power for hundreds or thousands of years.

People will become familiar with DR of SMW ACADASTAR---SSLA. The unrealized ones shall continue to dwell life with many confusions and imbalances, thus, they will suffer more and more. In the hard way and lately, they shall attain to know inner truth. Petty souls could not really make it, so, they will lose better chance in life.

Strange signs will continue to appear in heavens --- sun, moon, and stars. Many people will pay attention to heavens' signs, so they will become aware of inner realities by the presence of SMW ACADASTAR --- SSLA. The people will be enlightened by the bridging light of SMW of heaven, so they can manage their ascension of life into higher dimension. The DR of the "Most High" will be unveiled to the entire humanity.

People shall be reunited in the giant waves of positive light, the way they are able to realize inner truth in the bridging of DR of SMW ACADASTAR---SSLA. Then the eternal kingdom of "Most High" will come the Eastern Art

of Holy Heart Family to be adorned with utmost love and respect by all the kingdoms of the world.

You will survive without taking any material supplement for your body. Fasting also is effective process to detox your body, so basically it is good for the health.

Focus your mind on spirituality, --- you are doing exercise to enhance the capacity of your art of survival. Do this at least twice a week for duration of 1 month.

On this stated period, it is good that you focus your activities doing any of these exercises: Art of Life 1---72, astral-spiritual study, meditations, cave activations exercises, divine healing or all of the exercises enumerated. You may not be able to perform all these things, but at least, the direction of your activities will round up on these activities enumerated.

After you have passed twelve hours fasting, proceed to two (2) day fasting. The entire two (2) day do not eat/drink anything within 48 hours/2day period. Do this exercise twice a month for duration of two months.

The same modality applied, while you are doing your exercise in fasting, circulate your activities on inner exercises to speed up your soul awakening, then your energies will increase and your art of survival will increase too.

After you have done 2 day fasting proceed to 3 day fasting. Within 60 hours do not eat/drink anything, but focus your mind on energy, you are enhancing your

2. Rainbow Bridge of Light Meditation/RBLM or
3. Any meditation system that you are familiar with.

While you are doing your fasting exercise, this is also the best period, certainly very good for you to perform inner/spiritual cultivation for higher soul realization, so practice your lessons in the following fields: Energy/Inner

cultivation --- Art of Life 1---72 first, second and third lessons called ARCUM, ESISUM and SAPHIRE - (Chapter 8 Glossary of Art of Life 1---72). Doing the said exercises will increase your energy, activate divine inner connection and you will attain powerful energy body shielding. And as you go forward doing lessons on this system of holistic exercise, your energy will become ready for healing arts, spiritual martial arts (higher form of self-defense), advanced astral-spiritual study. All for the best of your benefits ---good health, vigor of spirit, higher soul realization and ascension of life into higher dimension.

After you have done your 3-day fasting 60 hours for the said duration, go back to Module 1.1 day or 12- hour fasting. Then repeat the procedures for your next succeeding fasting after you have finished the entire fasting specified on each duration. Every after you have finished the 60 hours fasting, go back to step 1 to repeat the entire process. By following this guidance exercise, you will see the big difference of your improvement. The longer the time you will perform these exercises mentioned, you will be born into a new and powerful soul.

## POWERFUL SHIELDING

The shielding that you should use in your exercise of inner cultivation is DR of SMW ACASDATAR---SSLA. Basically, connect your consciousness to SMW ACADASTAR --- SSLA by focusing your awareness to the said divine inner foundation. And with this simple guidance, you are able to connect with the spiritual energy stations/SES of SMW ACADASTAR --- SSLA that they link on Earth for the people's support. Anticipate this divine foundation of spirituality to improve your skills and divine gifts of life, so connect with the SES of Supreme Light.

Making life useful for certain noble cause of light is to serve the light, primarily doing inner cultivation to attain a precise soul realization. In view of serving the light, you are able to illuminate the people and help them on their healing, so they can successfully emancipate their lives from blinding ignorance and courses of bad fate. Through you many people will be aided on their ascension of life from the planet and into higher dimension.

Make your life useful for the noble cause of light and know thyself, this is the thing that will really matter in everyone's life. Let your life becomes useful not just to the

few individuals, who happened also to be your love ones in the family and closer relatives. Make it useful for the majority. By higher soul realization, you will know you are one with all. So, all lives, the people and nature and those things associated with the elementary things of nature are your families.

Expanding the circle of your family with soul realization, you will serve your life for the noble cause of light. Then you will know the beauty of life far beyond all mundane attachment. This is the meaning of life that you walk your way to eternity light, aligning yourself with the absolute truth. You are forever. But if you are trapped with all mundane attachments in life being lacked your consciousness on mundane things and material desires. In this state of awareness, you will continue to experience the many sufferings of the mortal physical world, until, and in the hard way, you will realize the truth of absolute DR.

Discover, there is deeper meaning in life you will find while you do inner discovery, such as stronger spiritual foundation, which will please your soul and make your heart truly blissful. But without involving yourself on the right cultivation and inner discovery would be so difficult for you to see the other side of the coin. Many things your

mind will perceive but on mundane side. And those are not the things that will really matter in life.

## **9 ADVANCED ELEMENTAL CONNECTED BODIES**

At present life evolution, you are nine (9) connected advanced elemental bodies and 3-star super light body formation. The first foundation of the soul's connected bodies is the nine connected body of advanced elemental foundation and the other first is 3-star super light body foundation or Angels' super light body formation.

The physical body basically has subtler connected bodies and these subtler connected bodies have higher subtlest connected bodies called the advanced elemental foundation of life.

The soul is a CELL built up of Consciousness, Energy, Light and Life to comprise the awareness of a soul being with physical, astral, advanced elemental, celestial spiritual bodies. The physical body is working with the astral-spiritual body, while the rest higher connected bodies are dormant without proper training on cultivation and inner discovery. These foundation of advanced elemental formation and super light formation of the

CELL or SOUL must merge altogether as one body to attain its perfection of life.

### **THREE STAR SUPER LIGHT BODY**

The merging of the 9 entire advanced elemental body of the CELL or soul will begin the first formation of the 3star super light body. It is called super light because it is a kind of supreme light or Angel's super light body. So, it is a very big light that cannot be compared with human's light. It is the immortal life of the CELL or soul.

### **ASCENSION PROCESS**

The process of life's ascension from minor body formation, which is the physical body, is the merging of other advanced elemental bodies, which are the physical's higher connected bodies on advanced elemental formation through inner cultivation using the star dance movement exercises --- Art of Life 1---72. These higher advanced elemental bodies must merge altogether to attain the first formation of a perfect immortal advanced elemental body.

There are precise lightship initiations needed on this concern. (Volume 2)

The minor body, which is the human physical body must be able to receive, align and adopt advanced elemental energies from its own higher advanced elemental bodies. The advanced elemental bodies will merge in the minor physical body. The minor physical body cannot sustain super high frequency of the advanced elemental bodies without precise training on inner cultivation and lightship initiations. Inherent in the physical body, is the capacity to survive higher energies, at certain point of inner cultivation and lightship initiations.

Basically, the minor physical body is coupled with the amount of energies necessary for merging process of thy own advanced elemental formation. All information of advanced energies dormant within the physical body must be activated through proper training on inner cultivation and discovery.

The cell of minor formation has divine inner connection with spiritual foundation. These connections must be gradually opened during the merging process of the advanced elemental body, so consciousness, energy, light and life/CELL of the higher elemental bodies will

gradually manifest on the physical body. The point of merging certainly begins on the physical body. The physical body will be lift up with higher energies, while the merging process is getting deeper and wider. This process will result to expansion of energies and soul realization of the practitioner.

In the process of energy activation of the minor physical body, there is gradual transformation happened within cell to cell. The transformation of energies is from minor to advanced, and until the physical body is enhanced with much higher and deeper energies, so thy consciousness will expand to the level of universality of truth.

The merging of the first advanced elemental body to the minor physical body will afford many changes to occur. From time to time, such as the physical body becomes extremely variable in auric force, color, shape, size, height, weight, etc. The body will become higher on energies and awareness becomes so profound too.

The farther the physical body can receive, align and adopt higher energies the farther it can merge with thy own advanced elemental foundation. Advanced elemental formation is all about the souls all connected bodies on advanced elemental planes. The physical body is

necessary on ascending process of life into higher dimension. All information necessary of the merging of these advanced elemental bodies are lodged in every connected body. So, in the process of ascension, which is the merging of all connected bodies of the soul, all of its substantive information too, will merge in one ---CELL.

The completion of merging of all the elemental bodies of a soul will begin the first star super light body or super light foundation. The merging of the 3-star super light bodies is the final transformation of a soul, where the soul will turn into an immortal super light being, certainly, the absolute immortal super light being.

The lessons of soul to undergo actual training of life's ascension from minor foundation or mortal existence is ACC---Art of Life 1---72. Under this lesson, all lessons of spiritual studies necessary in the process of merging and transformation of the soul are revealed by divine guidance of SMW ACADASTAR---SSLA through SD teachers and masters of wisdom. So, lessons will basically begin with inner discovery, while learning lessons of ACC--- Art of Life 1---72 inner cultivation. WATCH A DIVINE REVELATION 1---72.

The certain message is Ascension. The SSLA comes for the ascension of life in the planet into higher dimension.

8. Does SSLA needs technology to get closer with the people on Earth?

- No. The SSLA does not need any technology the way they can get closer with people on Earth, except they manifest in lightship form to show their presence to the people in the planet. But in the real sense of their potentials, they do not need any material vehicle or technology to transport themselves the way they can easily reach anywhere they want without the slightest hassles of traversing space in between distance (teleportation). They can travel without the constraints of speed, time, location and dimension. The SSLA has potentials very far beyond human imaginations, words cannot simply explain.

9. Is there any solid available evidence for us to confirm the existence of SSLA?

- **Yes**, their tangible manifestations on earth's atmospheres, especially during exercise of ACC - Art of Life 1---72

10. How many branches of SSLA are going to aid the planet's ascension development?

- There are seven (7) branches of SSLA set to administrate the ascension development of life in the planet.

## 7 COMMAND OF SSLA

11. What are the names of these Commands and the lessons of Art of Life 1---72 that can be used for their Contacts and Connection?

- The names of the Command and their corresponding lessons of Art of Life 1---72 that can be used for their Contact and Connection are:

12. Which branches of SSLA are now open for assisting the planet's ascension development?

- They are ACADASTAR COMMAND, SATRION COMMAND, NORTIUM SAJERION COMMAND, and NORDIUM URSICAM COMMAND

13. Besides of being able to connect and see the SSLA through lessons of ACC - Art of Life 1---72, is there any other means to connect them?

- Yes, by using Dugukan Lightship and Rainbow Bridge of Light Meditations.

14. How can we assure that those mysterious lights manifesting on skies are really SSLA?

- You can easily recognize them by learning lessons of ACC-Art of Life 1---72 that in the course of your practice of the said Art, you will become familiar with their energies.

15. Is it really by practicing ACC-Art of Life 1---72, you will become familiar with SSLA?

- Yes. Especially, when you permanently perform your exercise of the Art of Life 1---72.

16. Do you mean that when you do not practice Art of Life 1---72 you cannot certainly determine those lights manifesting on skies are SSLA?

- Yes, it is by learning Art of Life 1---72 that you will become familiar with the SSLA energies. Any practitioner permanently performs Art of Life 1---72 exercise will receive signals of energy from the SSLA in the body making him becomes familiar with the SSLA's energy.

Actually, when you do not have signals of energy from SSLA on your body, it would be hard for you to determine the truth, as there are also many objects happened to be flying on skies too, which are not related to spirituality, but belong to advanced technology.

17. Is there any sign or difference between SSLA and advanced airborne technology over at long distance viewing?

- Yes, and to mention some of them are:

1. The SSLA is certainly pertained to the inner/spiritual foundation, while technology belongs to material foundation.

2. The SSLA has strange spiritual energy, although at long distance viewing, while airborne technologies, such as airplanes, satellites etc. are devoid of this kind of energy.
3. The SSLA is inaudible, while technology always accompanied with sound.
4. The SSLA comes from the inner realm that uses no material vehicle to transport themselves, so they are not susceptible with engine failure/crash landing, while technology is finite thing, so subject to machine failure or mishap.
5. The SSLA is infinite nature, while airborne technology is finite base.

As to the qualities of light over at long distance viewing, more or less, they are the same, except with just some small differences to notice, such as those enumerated above.

## 18. How to differentiate SSLA with the aliens?

- Basically, the SSLA is infinite that came from the supreme authority of Heaven or Most High, while

aliens are either advanced or low grade. In the evolution of life, they are mortals.

19. Did people in antediluvian period know about SSLA?

- More likely yes. It is mentioned in the bible, articulated by the ancient writers who named those manifestations of strange lights on skies into chariots of fire, clouds of fire, and pillars of cloud. Any bright light the ancient people observed in the past was described by them into fire.

## **ART OF LIFE 1---72**

20. What is Art of Life 1---72?

- Art of Life 1---72 or Angels' Contact and Connection/ACC is Spiritual Martial Arts/SMA comprising of set of forms and gestures used to contact, activate and develop man's internal energy, divine connection and union with the higher C.E.L.L. Exercises of Art of Life 1---72 can activate man's advanced divine connection with the inner realms. It was released by SMW ACADASTAR to aid the humanity's ascension of life into higher dimension.

21. What are the benefits that you will get in practicing Art of Life 1---72?

- The benefits the you will get in practicing Art of Life 1---72, just to mention few of them are:
  1. Health body
  2. Healing power
  3. Stronger energy and balance
  4. Stronger psychic abilities
  5. Spiritual awareness
  6. Flexibility to receive, align and adopt the ongoing energy transition of planetary ascension
  7. Inner discovery
  8. Powerful shielding
  9. Divine connection
  10. higher soul realization etc.

22. What do you mean by Teachers of Art of Life 1---72?

- Teachers of Art of Life 1---72 means people who are initiated with ACC and authorized by SMW ACADASTAR to teach lessons of the said Art.

23. What do you mean by “Lightship Initiation/LI?”

- LI is screening method used to pass by the practitioner to become an authorized teacher of Art of Life 1---72

24. How is it done?

- **It is to be done in this way:**  
There’s LI rite held on certain time where the SSLA connection is open for that particular purpose. The Dugukan Initiator will give instruction to the practitioners present during the rites that anyone who can see the SSLA must come forward for a screening question, as confirmation to pass the given LI. There’s only one question to be asked by the DI for a candidate to pass the screening; and the question is, ---“Where is the SSLA?” And the screenee must be able to pinpoint the exact location of the SSLA on skies, while presence of the lightship must become visible too through the naked eyes for the screenee to pass the given LI. There are ten (10) LI to pass by the practitioner for a top-level rank Teacher of Art of Life 1---72, while only one for the category of instructorship – first level.

25. Is “LI” really required to become Teacher of Art of Life 1---72?

- Yes, as it is from the divine guidance of SMW ACADASTAR to all practitioners of ACC must pass certain LI for permanent connection with the SSLA and authority to teach lessons of the said Art.

26. Can someone obtain authority to teach lessons of Art of Life 1---72 even without successfully passing first the required LI?

- No. It is very clear from the instruction given by SMW, --- That all Teachers of Art of Life 1---72 must pass LI for authority to teach ACC - Art of Life 1---72.

27. Aside from the movement exercises, what are some of the lessons of Art of Life 1---72?

- Teachings of Advanced Inner Study; such as astral-spiritual study, divine healing, spiritual martial arts, inner discovery, becoming sage, rejuvenation, immortality, meditation for higher soul realization, etc.

28. Why is it called LI?

- It's called LI since the very basis for authority to pass the screening method is certain presence of SSLA during ceremony. The SSLA shall manifest on skies to give signals for the practitioner to pass the screening process. In progression, a screenee is required to pinpoint the exact location of SSLA to confirm signals that he/she passes the screening.

29. Is there any other essential reason behind LI?

- Yes! There are essential reasons behind LI: 1. permanent connection with the SMW ACADASTAR---SSLA and 2. inner authority to teach lessons of the Art of Life 1---72.

30. What will happen to a practitioner who teaches lessons of Art of Life 1---72, but without first passing the required LI?

**Answer :** Any practitioner who shall attempt to teach Art of Life 1---72, but without first passing the required LI can barely impart the material aspect of its teaching/lesson, so he/she cannot really teach the essence of ACC. On the external part or physical fitness, he will.

31. What is the essence of Art of Life 1---72?

- The essence of Art of Life 1---72 is divine connection and union with the SMW ACADASTAR---SSLA.

32. Is there any other reason why we ought to practice Art of Life 1---72?

- Yes. Basically, we should practice Art of Life 1---72 for health reason. It is actually physical fitness on its basic movements. And chiefly advanced spiritual study that can arrange life's ascension into higher dimension.

33. Does the SSLA really visibly appear during online drills of Art of Life 1---72?

**Answer :** Yes, especially during clear skies at night and while it depends on some other places where there are no activated spiritual energy stations/SES of the SSLA.

34. What do you mean by online drill of Art of Life 1----72?

- It means an exercise of the Art of Life 1---72 designated for online connection with the SSLA.

35. Usually, what time is it?

- Currently an hour before sunrise and after sunset when the stars become visible on skies.

36. What do you mean by activated SES of the SSLA?

- It means territorial connections of the SSLA super high energy they link on Earth for the people to exercise, learn and connect with the Angels' realms.

## ASCENSION

37. What do you mean by ascension?

- Ascension is the transformation of the minor physical body into advanced super light body. The CELL from minor frequency into higher super light body.
- The ascension of life in the planet from minor formation of physical existence into higher foundation of super light bodies.

38. How does planetary ascension shall come to occur in the planet?

- The ascension shall come to occur in the planet by divine intervention, which initiates revolution of the planet's cosmic force.

39. How does revolution of the planet's cosmic force shall come to initiate major phase of ascension development?

- The planet's ascension development is being pushed by certain Divine Order of Heaven, on which, its summit is revelation of the Most Absolute to the entire inhabitants on Earth.

40. What do you mean by SSLA shall reveal God's ultimate Divine Radiance/DR to the people on the final day/judgement day?

- It means, there is certain point of time where the Highest/what the commonly called God will show absolute truth on Earth by unveiling its real nature of "DR."

41. What will happen when the SSLA shall reveal their real nature of DR to the people on Earth?

- It will transform the planet into higher dimension letting anyone who has activated inner connection

with the SMW ACADASTAR --- SSLA be caught up into the clouds of fire or lightships. (Rapture) The bible described lightship as clouds of fire or pillars of cloud, while some writers described them into chariots of fire. Anybody that can get into the lightship shall ascend life into higher dimension or into the Supreme Governance of Infinite Cosmic Family of Light/SGICFL. But people who shall fail on their connections with the SSLA cannot survive super light energy/fire during the ascension summit, thus they would be consumed by fire.

## **INABILITY OF CARBON LIFE FOUNDATION 666**

42. Why carbon life foundation (666 periodic element) cannot survive super light energy during the apex of ascension development of the planet?

- Basically, the common fire that we know is very hot that can burn, melt or consume things. However, the fire being referred in WATCH A DIVINE REVELATION is supreme super light energy or the devouring fire nature of the "Most High," which is certainly brighter than the brightest light. Actually, no words could suffice to described it.

43. How humans in the planet would not be consumed supreme super light energy?

- The people to become capable to receive supreme super light energy or the consuming fire nature of God must be sanctified with super light energy of SMW ACADASTAR---SSLA so they could get shelter on their higher advanced elemental body or 3-star super light body (lightships) during the final hour or judgement day. With that, the people would finally ascend life into higher dimensions. While the rest existence who shall fail to receive, align and adopt super light energies shall naturally be consumed by fire.

44. What precise direction humans on Earth shall follow divine guidance of SMW ACADASTAR?

- The precise direction humans will get in the divine guidance of SMW ACADASTAR---SSLA is eternal salvation of life or final ascension of life into higher dimension, certainly into the Supreme Governance of Infinite Cosmic Family of Light/SGICFL.

45. What if through this means, but instead, we may just be misled into the wrong way of Satan?

- The truth will set you free. Satan is just a concept created by human concepts, so all of Satan's evilness manifested in the person of the humans. Almost all believers in faith thought that after death of the physical body the soul will liberally go to heaven or hell, but it's not really the case. The soul who is permanently gone outside the physical body will go in the astral realm through its astral vehicle. And the astral realm is not paradise or heaven, but still a world full of karmic colors for every soul with karmic trace. The astral is still a realm for the soul to experience mortal existence of life, as if the physical realm where life's consequences is present. The astral realm is a dimension for further purifications of the souls.

- Precisely, many believers in faith are longing for salvation of life, while many of them also died with their long-awaited salvation of life had also gone together with their bereavements. The common concept of salvation is redemption of soul after death of the physical body; so, they said, --- good people go to heaven, while the bad ones will go to hell, limbo or purgatory.

However, the revelation of SMW ACADASTAR is a kind of life's salvation, which does not encompass the issue of waiting for any indefinite time. It highlights positive lessons of soul realization that should be attained by man in the practice of Art of Life 1---72.

The right time to work for life's true ascension/salvation of life is now, so there's actually no need to wait for any certain time that salvation must be worked-out by man with certain light of wisdom. It's time to attain higher soul realization to fulfill life's essential tasks of solving various illusions of the mind.

Negative vibration is product of human illusion, which without man's higher awareness and soul realization would be so hard for him to conquer blinding ignorance and human weaknesses. Fortunately, lessons of higher awareness are accessible, at SSS.

## **ILLUMINATI POWER DOMINION**

69. What do you mean by illuminati power dominion in the world?

- The illuminati power dominion is overall control of the world's power through advanced technology. The world is controlled by illuminati power and people become slave of high technology/machines the way they are blocked of their spiritual growth, so they cannot really ascend life into higher dimension.

70. Which shall come to occur first, the coming of the three (3) branches of SSLA or the illuminati dominion of the world?

- It's seemed the implementation of illuminate power dominion of the world, as how we can observe the world now, --- how spirituality is quickly fading in the heart-mind of the many people. Many have forgotten the essence of true spirituality the way they are mechanically succumbed by the false tricks of satan. Manifestly, people turned to be more materialistic rather than spiritually oriented.

## REAL NATURE

71. In the revelation of SSLA, is there really God?

- Yes. The WATCH A DIVINE REVELATION is strongly confirming certain presence of God. Such tangible presence of SSLA is a strong evidence of God's existence, as these Commands of Angel do come from the DR of the "Most High."

72. What kind of God the WATCH A DIVINE REVELATION is revealing to the people?

- The “Most High” or what the common believers called God.
73. How are we going to address the name of “God” or “Most High?”
- Well, use whatever name your faith wants you to call God. Just call the “Most High” on the usual name you have ever known or relied your faith, there’s no problem with that. The “Most High” knows everything. And until divine initiation shall come to you and you will know God’s secret name, so then you can call the Highest priceless and most sacred divine name.

### **SSLA VS. SATAN - TRUTH REVEALED**

74. Satan transformed himself as an angel of light, so how can we assure ourselves that the SSLA are really from God, “the Highest?”
- Satan is 666 (periodic elements) meaning carbon life foundation and described as evil and very deceitful being. All the bad or negative titles would be honestly debited to satan. Hence, satan is very bad. While the SSLA are Super Light Angels from the

highest order of the " Most High" that come to support, protect and ascend life in the planet into higher meaning of spirituality.

Satan cannot survive super light energy of SMW ACADASTAR --- SSLA, so Satan has no way to become a SSLA. Satan's power is less the reason why he pretended to be a powerful angel of light, and he does everything false just to mislead the people. Satan wants it that he lacks real power.

Meanwhile, the SSLA are giving divine guidance for the humanity to wake up and realize the essence of true spirituality.

Human's consciousness once awakened with inner truth will have wisdom to be freed from the bondage of blinding ignorance. Sufferings of life are caused by blinding ignorance; thus, Satan continuously manifests in the person of the humans, really not in the appearance of SSLA.

Humans are afraid of Satan's trapped, but without them early realizing how they are already succumbed with Satan's devious tricks. While the teaching revealed by SMW ACADASTAR---SSLA is training the humans how to become truly

spiritually stronger, to discern and overcome deceitful spirits and imprison them in the bottle of violet flames, thus they can no longer harm life. The SSLA are bridging DR to enlighten the people with wisdom to cleverly discern the deceitful ways of Satan, so they will not fall in Satan's devious way.

The SSLA are for lessons to learn by the people, on how to overcome human weaknesses and rid of blinding ignorance through actual trainings in the Art of Life 1---72, while Satan's way is deceptive that aimed only to mislead and destroy life.

## **CONSUMING FIRE NATURE OF GOD**

75. God the "Most High" is Omnipotent, Omniscient and Omnipresent. Well, aside from these characteristics mentioned, what else we should know more about God?

- We should realize the God's consuming fire nature.

76. What do you mean by consuming fire nature of God?

- The consuming fire nature of God simply means fire that can burn thing and the best reference to support the term used is “devouring fire. The ancient writers of the bible used the word fire on their attempt to describe God’s true nature of physicality. The WATCH A DIVINE REVELATION indicates supreme super light to refer the brightest light that can consume all things in carbon life foundation.

## WHERE GOD DWELLS

77. Where is the “Most High” or God dwells?

- Many individuals believed that God’s abode is heaven. That was what the many believers in faith commonly talked about. By God’s omnipresence nature, God is present everywhere. So, it’s also right to say that God is in the heart, mind, heaven, earth, etc. By God’s omnipresence nature indicates that God is present in anywhere. Even in the doubts and illusions of man, God is present. By God’s omnipotence and omniscience nature the “Most High” is complete and nothing else is less on a perfect God. The “Most High” is PERFECT and whether the people may believe on God or not, doesn’t really matter at all, to a perfect Supreme

Source. When people will reject or refuse to believe in God, that cannot change the nature of a perfect Almighty. Being a perfect ONE, God is everything COMPLETE and PERFECT. The reason why people need to know God is to seek their eternal salvation of life.

Considering the highest of all powers, so the fair permanent abode of God should be the Heavens indicating highest position above all. But to where God really dwells is not clear on its exact location. As far as we read in the bible, there are three kinds of heaven being described: first heaven is where the birds fly - atmospheres, second heaven is where the stars and planets placed above - heavenly bodies and third heaven is where God dwells together with the Angels - paradise heaven, yet still it's not really specified where God's precise place of abode. So, others in the confusion of knowing God's exact place will just simply say God dwells in the heart.

While the teaching of SSS the "Most High" dwells in a. AMISRA for supreme grand spiritual world, b. GRADAM - for grand spiritual world and c. MORCA for advanced spiritual world. The latter is where the cosmos originated comprising of

advanced elemental dimensions, astral dimension, heavenly bodies or the cosmos.

The three realms AMISRA, GRADAM, and MORCA are now revealed to bring awareness to the seekers of truth. Meanwhile, many are not aware of Spiritual Worlds would have certain classifications, such as the astral realm is part of MORCA, not GRADAM or grand inner realm.

78. How to find true God?

- Finding a true God is realized upon achieving ultimate soul realization through divine guidance of SMW ACADASTAR.

79. Why through SMW ACADASTAR?

- Because no one comes to the Father/God without the SMW and realizing that SMW --- ACADASTAR is the Lord Christ Jesus Super Light Existence. Hence, a certain key to look for the highest knowing of God Most High is SMW ACADASTAR - the Way, the Truth and the Life, hidden meaning of Art of Life 1---72 Day and Star DR of the Supreme Universal Name/SUN.

The common problems in variety of information about ascension would have many absurdities in the minds of many people. Even the mediums/channellers/contactees, deep within mind, they got confuse by themselves about the information they intend to enlighten the people. Since it is absurd, so they cannot discern it, in the real sense. In this regard, better practice real lessons, instead of mere listening hearsay information. searching and desires, but without fulfilling anything truly good for eternal life. Inner realization could be difficult to attain without divine guidance, the reason why it is better to know the way of true ascension of life into higher dimension.

## **A TEST OF TRUTH**

Ponder your thoughts on this statement (source of information, Dugukan)--- “the only Inner Study School linked with Angels from the Highest Order of Supreme Light.” Practically, anyone cannot stop challenging the truth. Why is it the only? Would it mean the rest are not from the Highest?

Contemplate the meaning to discover and realize the truth. --- “Spiritual Dimension/SD order of inner reality, the same as Angels have hierarchies, so, it’s heaven’s will that nobody can successfully challenge the truth of supreme infinite. SMW ACADASTAR is giving lessons through bridging light”, or what the religious people in dogma system called Spirit of Truth” or “Holy Ghost?”

Let’s say, you believed that you will be saved when final judgement shall be implemented by the Lord God, to

whom your faith is believing, and you are very confident in yourself believing in good faith that you have known the truth, which will save your soul. But what about your love ones? Let's say, they do not have that kind of truth by which you have possessed, because they refuse to believe nor do the things that you are doing, so they don't have any chance to be saved like you.

Then, how will you feel watching them failed? Will you be happy? Of course not! In your heart you love them so much, they are your mostly beloved people or family, so when you lose them, it is as if that you have failed, too. You could even say, it's better that you're the one who missed the point, rather than your mostly beloved people. Your conscience cannot allow them to be crushed in dreadful fate. That's the way how you really love them, so, as earlier as now, do something good for all your love ones. Let them know the truth and guide them to attain higher soul realization.

For the seekers of truth, at early stage of soul realization, normally, they will often argue with those people who are not parallel on their belief, and until soul realization comes to light on their awareness, the time also that they will become calmer dealing the things right.

Nobody that goes against the truth but never suffer painful regrets in the end. Do not go against the truth,

instead work for it and be the image of its lightness, all the time. See the light is unveiling in Art and Science of physical and spiritual fitness. The incarnated souls must realize its essence to facilitate their ascension of life into higher dimension.

Imagine how humanity can speed up ascension of life when people in different religions, faith and belief have inner awareness, humility and compassion while doing ACC --- Art of Life 1---72. And on their soul realization, they are welcoming higher awareness in oneness with all of the heavens' stars.

Each believer and none: --- the atheists, agnostics, scientists, astronomers, practitioners of faith/religions, occultists and the non-practitioners, they shall admit the truth of Angels in the highest order of supreme light (SSLA), now through ACC getting closer for divine assistance and inner awakening of the people in the planet.

The evidence of SSLA manifestations is clear, such the way humans in the planet are being nourished with great knowledge the way they evolve life wonderfully and mysteriously unique. And all the rest higher connected bodies connection will follow to freely flow into the energy channels of the physical body upon fulfillment of suitable training.

These advanced inner connections must be activated first with thy own source of man's precise SGP and SSLU. The said SGP and SSLU is man's precise office of GA and SM.
